(viii) *Date Report Delivered to Congress*: 22 Jan 2014

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Libya—General Purpose Force Training

The Government of Libya has requested a sale of training for a 6,000 to 8,000 person General Purpose Force. The training includes services for up to 8 years for training, facilities sustainment and improvements, personnel training and training equipment, 637 M4A4 carbines and small arms ammunition, U.S. Government and contractor technical and logistics support services, Organizational Clothing and Individual Equipment (OCIE), and other related elements of logistical and program support. The estimated cost is \$600 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Libya.

The proposed sale will enable Libya to develop, and train a General Purpose Force. The basic, collective and advanced training will be critical for establishing a professional and disciplined General Purpose Force used in protecting Libya's institutions,

facilities, and personnel as well as keeping peace and security within Libya.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors are unknown at this time but will be determined during the competitive bid process. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of 350 U.S. Government and contractor personnel for up to 8 years to conduct training at the Novo Selo training site in Bulgaria.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Department of the Air Force

Record of Decision for the First Air National Guard F–35A Operational Base Final Environmental Impact Statement

ACTION: Notice of Availability (NOA) of a Record of Decision (ROD).

SUMMARY: On December 2, 2013, the United States Air Force signed the ROD for the F–35A Operational Basing Final Environmental Impact Statement (FEIS). The ROD states the Air Force decision to implement the Preferred Alternative to beddown 18 F–35A Primary aircraft authorized (PAA), at Burlington Air Guard Station, VT.

The decision was based on matters discussed in the FEIS, inputs from the public and regulatory agencies, and other relevant factors. The FEIS was made available to the public on October 4, 2013 through a NOA in the **Federal Register** (Volume 78, Number 193, Page 61845) with a wait period that ended on
