DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the National Coordinator for Health Information Technology; American Health Information Community; Announcement of Public Comment Period About the Design and Implementation of the American Health Information Community Successor

SUMMARY: This notice announces a public comment period, from August 6, 2007 to August 31, 2007, to collect input about ideas for the design and implementation of a successor entity for the American Health Information Community (AHIC) as described in the *American Health Information Community Successor White paper, July 2007* (available on the Web at <http://www.hhs.gov/healthit/community/background/AHICsuccessor.html> on or after July 31, 2007).

The ANIC is a federally-chartered advisory committee that provides input and recommendations to the Department of Health and Human Services (HHS) on how to make health records digital and interoperable, and how to assure that the privacy and security of those records are protected. The charter of the AHIC requires that its responsibilities be transferred to a successor entity. Therefore, HHS and the AHIC are embarking upon a project that will take the AHIC to the next level. The successor entity will be an independent, sustainable public-private partnership that brings together the best of the public and private sectors. This
