

POLICY JUSTIFICATION**(U) United Arab Emirates (UAE)—
Exercise Participation Support**

(U) The Government of the UAE requested a possible sale to include participation in military exercises, aerial refueling, airlift and ferry support, training aids/devices/munitions, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$75 million.

(U) This proposed sale contributes to the foreign policy and national security of the United States by helping to improve the security of a major regional ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

(U) This proposed sale contributes to the foreign policy and national security of the United States by helping to improve the ability of the UAE to employ its fighter aircraft in a multi-country coalition environment, such as Red Flag and Green Flag exercises. Participating in major exercises has enhanced the UAE's continued and

consistent role in support of Coalition Operations. The UAE is a steadfast coalition partner in the fight against radical Islamic forces such as ISIL and Al Qaeda (AQAP) in the Arabian Peninsula.

(U) The proposed sale of this equipment and support does not alter the basic military balance in the region.

(U) Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

(U) There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. All defense articles and services are approved for release by our foreign disclosure office.

OCT 13 2016

Dear Mr. Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 16-38, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to the Government of Kuwait for defense articles and services estimated to cost \$194 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

JAMES W. RIXEY
DEP ASST DIR

Transmittal No. 16-38

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Kuwait

(ii) *Total Estimated Value:*

Major Defense Equipment * ..	\$ 62 million
Other	\$132 million
Total	\$194 million

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:*

Major Defense Equipment (MDE): Six (6) AN/MPQ-64 Sentinel F1 Radars

Non-Major Defense Equipment (MDE): The Government of Kuwait requested a limited competition between three (3) U.S. vendors to procure a total of six (6) Short Range, Gap Filler Radars (e.g., AN/MPQ-64 Sentinel F1, AN/TPS-77, or AN/TPS-703) and one (1) Long Range

Radar (e.g., AN/TPS-77 or AN/TPS-78). Only one of the radars under consideration, the AN/MPQ-64 is Major Defense Equipment (MDE). The remaining radars identified by Kuwait for consideration are non-MDE. Additionally, Kuwait is requesting one (1) Long Range Radar with Primary Surveillance Radar (PSR) and Secondary Surveillance Radar (SSR) capability on the Long Range Radar, upgrades to existing AN/FPS 117 (V) 3 Long Range

Radars, upgrades to airfield radome and communications systems, upgrade secure Identification Friend or Foe (IFF) systems, site surveys, installation and checkout, site acceptance testing, interim contractor support, construction, contractor logistics support (CLS), spares, support equipment and training. Cost for additional non-MDE is \$132 million. The total overall estimated cost is \$194 million.

(iv) *Military Department:* Air Force (X7-D-DAB)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Annex attached.

(viii) *Date Report Delivered to Congress:* October 13, 2016

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

The Government of Kuwait-Radar Field System

The Government of Kuwait has requested a possible total sale of six (6) Short Range Radars, otherwise known as Gap Filler Radars, one (1) Long Range Radar with Primary Surveillance Radar (PSR) and Secondary Surveillance Radar (SSR) arrays, upgrades to existing AN/FPS 117 (V) 3 Long Range Radar, upgrades to airfield radome and communications systems, upgrade to secure Identification Friend or Foe (IFF) systems, site surveys, installation and checkout, site acceptance testing, interim contractor support, construction, contractor logistics support, spares, support equipment, and training. The total estimated value of this sale is \$194 million.

The Government of Kuwait requested a limited competition between three (3) U.S. vendors to procure a total of six (6) Short Range, Gap Filler Radars (e.g., AN/MPQ-64 Sentinel F1, AN/TPS-77, or AN/TPS-703) and one (1) Long Range Radar (e.g., AN/TPS-77 or AN/TPS-78). Only one of the radars under consideration, the AN/MPQ-64 is Major Defense Equipment (MDE). The remaining radars identified by Kuwait for consideration are non-MDE.

This proposed sale supports U.S. Government national security goals by aiding a Major non-NATO Ally in the reduction of transnational threats, weapons proliferation, and the movement and support of international terrorists.

The Government of Kuwait desires the radar field system in order to

improve early warning, enhance internal and external security, and protect national sovereignty. The system provides situational awareness for Kuwaiti security forces to detect and interdict fixed and rotary wing aircraft. This procurement provides coverage for Kuwait's northern and eastern borders.

The prime contractor will be determined by competition between Lockheed Martin, Bethesda Maryland, Northrop Grumman, Falls Church, Virginia, and the Raytheon Company, Waltham, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

This procurement includes a small number of U.S. contractor system and maintenance advisors under a long-term operations and maintenance support package. The exact number of personnel and period of performance is yet to be finalized. This purchase will not substantially alter the U.S. Government presence in Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16-38

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The AN/MPQ-64 Sentinel Radar System is a fielded air defense radar system in the Army inventory. Sentinel is a derivative of the AN/TPQ-36 Firefinder System used for artillery detection and the AN/TPQ-36A Norwegian adapted Hawk system. Sentinel is a mobile, phased-array radar that provides highly accurate 3 dimensional radar track data to using systems via the Forward Area Air Defense (FAAD) Command, Control, and Intelligence (C2I) node. Sentinel acquires, tracks, and reports cruise missiles, unmanned aerial vehicles, fixed and rotary wing aircraft in clutter and electronic counter measures environments. The Sentinel Export configuration (AN/MPQ-64Fl) is a derivative of the U.S. Army's Improved Sentinel Radar.

2. The Sentinel consists of a radar-based sensor system with the M1152 HighMobility Multipurpose Wheeled Vehicle (HMMWV) as the prime mover and the MEP-1041 Advanced Mobile Medium Power Source (AMMPS) Tactical Quiet Generator as the power source. The sensor is an advanced battlefield radar capable of X Band air defense phased-array with an instrumented range of 75 kilometers

with a rotating antenna providing 360 degree azimuth coverage for acquisition and tracking.

3. Sentinel has only one item currently designated Critical Program Information (CPI) and that is the Sentinel software modules containing routines for electronic counter-counter measures (ECCM) that have been determined to be a CPI.

4. These items are classified IAW EO 12958 section 1.5, Classification categories as category 1.5(e) because they contain scientific, technological, or economic matters relative to the national security. Reports, test data, and all Sentinel related media that discloses operational parameters, performance, characteristics, ECCM techniques, vulnerabilities, limitations or performance weaknesses shall be classified at the highest level based on the information being conveyed as referenced in the Sentinel Security Classification Guide. Distribution of technical performance and system capabilities reports and data shall only be released up to the CONFIDENTIAL level. It is not possible to obtain the Sentinel wartime reserved frequencies by reverse engineering, testing, or analyzing the unclassified Sentinel end item.

5. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification. Moreover, the benefits to be derived from this sale, as outlined in the Policy Justification, outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons.

6. All defense articles and services listed in this transmittal are authorized for release and export to the Government of Kuwait.
