II. Background

On October 6, 2023, FMCSA published a notice announcing its decision to renew exemptions for 16 individuals from the hearing standard in 49 CFR 391.41(b)(11) to operate a CMV in interstate commerce and requested comments from the public (88 FR 69677). The public comment period ended on November 6, 2023, and no comments were received.

FMCSA has evaluated the eligibility of these applicants and determined that renewing these exemptions would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with § 391.41(b)(11).

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid (35 FR 6458, 6463 (Apr. 22, 1970) and 36 FR 12857 (July 8, 1971), respectively).

III. Discussion of Comments

FMCSA received no comments in this proceeding.

Agency Information Collection Activities; Request for OMB Approval To Renew an Information Collection Request: Truck and Bus Maintenance Requirements and Their Impact on Safety

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for review and approval. The Federal Motor Carrier Safety Administration (FMCSA) is authorized to study vehicle maintenance to determine the impact of vehicle maintenance requirements on overall motor carrier safety. FMCSA may fund research, development, and technology projects that improve the safety and efficiency of commercial motor vehicle operations through technological innovation and improvement.

DATES: Comments on this notice must be received on or before December 15, 2023.

SUPPLEMENTARY INFORMATION: In this study, FMCSA will collect, via two surveys of freight motor carriers and passenger carrier maintenance managers, qualitative and quantitative data to assess the opinions of carrier representatives to develop an operational definition of “systematic maintenance” for trucks and buses, examine maintenance differences between vehicle classes, and identify industry maintenance norms. Survey results of those carriers with low crash and vehicle maintenance violation rates will be combined to provide guidance on recommended practices. Additionally, respondents from carriers with high rates of crashes and violations may provide useful feedback on the effect of the interventions within their maintenance programs or activities, and an evaluation of adequacy of current regulations. The information collected by the survey will be a critical input to the Recommended Practices Report, which is a required final product for the project. Three comments were received in response to the 60-day **Federal Register** notice.
