#### Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to complete the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend that time period to a maximum of 365 days.

The Department has determined it is not practicable to complete this review for the remaining respondent, Qingdao Shunxingli, within the statutory time limit because we require additional time to analyze complex issues, such as the valuation of the principal raw material and the financial ratios, and the questionnaire responses submitted by Qingdao Shunxingli. The time needed to analyze this information and to develop fully the record in this administrative review makes it impracticable to complete the preliminary results within the originally specified time limit. Accordingly, the Department is extending the time limit for completion of the preliminary results of this administrative review until no later than December 1, 2008 (*i.e.*, the next business day following the 365th day after the last day of the anniversary month of the order). We intend to issue the final results no later than 120 days after publication of the preliminary results notice.

This notice is issued and published in accordance with and sections 751(a)(1), 751(a)(3)(A), and 777(i)(1) of the Act, and 19 CFR 351.213(d)(4).
