**Receipt of an Application for an Incidental Take Permit for Construction of a Single-Family Residence in Sarasota County, FL**

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice.

**SUMMARY:** Paul Athanas (Applicant) requests an incidental take permit (ITP) pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended (Act). The Applicant anticipates taking about 0.275 acre of Florida scrub-jay (*Aphelocoma coerulescens*) (scrub-jay) foraging, sheltering, and possibly nesting habitat, incidental to lot preparation for the construction of a single-family residence and supporting infrastructure in Sarasota County, Florida (Project). The Applicant's Habitat Conservation Plan (HCP) describes the mitigation and minimization measures proposed to address the effects of the Project to the Florida scrub-jay. These measures are outlined in the **SUPPLEMENTARY INFORMATION** section below.

**DATES:** Written comments on the ITP application and HCP should be sent to the Service's Regional Office (see **ADDRESSES**) and should be received on or before September 27, 2006.

**ADDRESSES:** Persons wishing to review the application and HCP may obtain a copy by writing the Service's Southeast Regional Office, 1875 Century Boulevard, Suite 200, Atlanta, Georgia 30345 (*Attn:* Endangered Species Permits), or the Service's Vero Beach Field Office, Fish and Wildlife Service, 1339 20th Street, Vero Beach, Florida, 32960-3559. Please reference permit number TE126176-0 in such requests. Documents will also be available for public inspection by appointment during normal business hours at the Regional Office or the Vero Beach field office.

**FOR FURTHER INFORMATION CONTACT:** Mr. David Dell, Regional HCP Coordinator, (see **ADDRESSES** above), telephone: 404/679-7313, facsimile: 404/679-7081; or Elizabeth Stafford, Fish and Wildlife Biologist, South Florida Ecological Services Office, Vero Beach, Florida (see **ADDRESSES** above), telephone: 772/562-3909, ext. 304.

**SUPPLEMENTARY INFORMATION:** If you wish to comment, you may submit comments by any one of several methods. Please reference permit number TE126176-0 in such comments. You may mail comments to the

Service's Regional Office (see **ADDRESSES**). You may also comment via the Internet to [david\\_dell@fws.gov](mailto:david_dell@fws.gov). Please include your name and return address in your Internet message. If you do not receive a confirmation from us that we have received your internet message, contact us directly at either telephone number listed below (see **FOR FURTHER INFORMATION CONTACT**). Finally, you may hand deliver comments to either Service office listed below (see **ADDRESSES**). Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the administrative record. We will honor such requests to the extent allowable by law. There may also be other circumstances in which we would withhold from the administrative record a respondent's identity, as allowable by law. If you wish us to withhold your name and address, you must state this prominently at the beginning of your comments. We will not, however, consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

The Florida scrub-jay is geographically isolated from other species of scrub-jays found in Mexico and the western United States. The scrub-jay is found exclusively in peninsular Florida and is restricted to xeric uplands (predominately in oak-dominated scrub). Increasing urban and agricultural development has resulted in habitat loss and fragmentation which has adversely affected the distribution and numbers of scrub-jays. The total estimated population is between 7,000 and 11,000 individuals.

According to surveys accomplished in 1992-1993, 2000, and 2004, the Applicant's lot is within the territory of a family of scrub-jays. The scrub-jays using the Project area and adjacent properties are part of a larger complex of scrub-jays located in a matrix of urban and natural settings in southern Sarasota County. Construction of the Project's infrastructure and facilities will result in harm to scrub-jays, incidental to the carrying out of these otherwise lawful activities. Habitat alteration associated with the proposed residential construction will reduce the availability of foraging, sheltering, and possible nesting habitat for one family of scrub-jays.
