Notice of Intent To Prepare an Environmental Impact Statement for the Mountain States Transmission Intertie Project in Montana and Idaho, Possible Land Use Plan Amendments, and Notice of Public Scoping Meetings

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent.

SUMMARY: The Bureau of Land Management (BLM) gives notice of intent to prepare an Environmental Impact Statement (EIS) to address potential effects of a proposed project by NorthWestern Energy to build and operate a new 500 kV electric transmission line requiring a special use permit, right-of-way grant, and/or temporary use permit for construction, operation, and maintenance of a 500kV electric transmission line and associated substation, including new access roads. The transmission line is known as the Mountain States Transmission Intertie (MSTI) Project. NorthWestern Energy's three project alternatives range from 390 to 430 miles in length, but additional alternatives or variations on alternatives may be developed through the environmental review process. Alternatives for the proposed transmission line would pass over private, state, and federally managed lands in Montana and Idaho. Federally

managed lands include lands administered by the BLM, U.S. Forest Service (USFS), Department of Agriculture (USDA) Agricultural Research Service (ARS), U.S. Sheep Experiment Station, and U.S. Department of Energy (DOE) Idaho National Laboratory. Authorization of this proposal may require the amendment of the BLM and the USFS land use plans (Forest Plans, Management Framework Plans, and Resource Management Plans).

DATES: This notice initiates the public scoping process. Comments concerning the scope of the analysis should be received by October 10, 2008. The BLM will host open houses in the following communities:
