

shipments of certain circular welded carbon steel pipes and tubes from Taiwan entered, or withdrawn from the warehouse, for consumption on or after the publication date of the final results of these administrative reviews, as provided by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for Yieh Hsing will be zero, in light of its *de minimis* weighted-average margin; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) if neither the exporter nor the manufacturer is a firm covered in this review, the cash deposit rate will be 9.70 percent. This rate is the "all others" rate from the amended final determination in the LTFV investigation.

This notice also serves as a reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during these review periods. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with sections 351.305 and 351.306 of the Department's regulations. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 351.221.

Dated: October 5, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Clad Steel Plate From Japan: Rescission of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of rescission of antidumping duty administrative review.

SUMMARY: In response to notification by Dana Glacier Daido America LLC that it is not an interested party in this proceeding, we are rescinding the 1999-2000 administrative review of clad steel plate from Japan.

EFFECTIVE DATE: October 12, 2000.

FOR FURTHER INFORMATION CONTACT: James Nunno or Christopher Priddy, AD/CVD Enforcement Group I, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-0783 or (202) 482-1130, respectively.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Act are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are to 19 CFR part 351 (1999).

Background

On July 31, 2000, Dana Glacier Daido America LLC (Dana), requested that the Department conduct an administrative review of the antidumping duty order on stainless steel sheet and strip in coils from Japan for subject merchandise produced and exported by Daido Metal Corp. (Daido) during the period January 4, 1999, through June 30, 2000. On August 3, 2000, and August 9, 2000, Dana revised this request to correct and clarify the case name and number for which it requested an administrative review (*i.e.*, Dana intended to request a review of clad steel plate from Japan produced and/or exported by Daido to the United States). On August 31, 2000, Dana informed the Department that the merchandise that it imported is not subject to the antidumping duty order on clad steel plate from Japan, and withdrew its request for an administrative review. On September 6, 2000, the Department published in the

Federal Register a notice of initiation of administrative review with respect to Daido. See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part; 65 FR 53980 (Sept. 6, 2000).

Rescission of Review

Pursuant to 19 CFR 351.213(b)(3), the Department will initiate an administrative review based on a request from an importer of the subject merchandise. Given that Dana withdrew its request for review, notified the Department that it was not an importer of the subject merchandise during the period of review, and that no other party requested a review of this order, we are rescinding this review.

This rescission of the administrative review and notice are in accordance with section 751 of the Act and 19 CFR 351.213(d).

Dated: October 2, 2000.

Richard W. Moreland,

Deputy Assistant Secretary for Import Administration.

Polyvinyl Alcohol From Taiwan: Final Results of Third Antidumping Duty Administrative Review and Determination Not To Revoke Order in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of third antidumping duty administrative review and determination not to revoke order in part.

SUMMARY: On June 6, 2000, the Department of Commerce published the preliminary results in the third administrative review of the antidumping duty order on polyvinyl alcohol from Taiwan and intent not to revoke the order in part. The review covers Chang Chun Petrochemical Co., Ltd., a manufacturer/exporter of the subject merchandise. The period of review is May 1, 1998, through April 30, 1999.

Based on our analysis of the comments received, we have made one change in the margin calculations to correct a ministerial error. However, the final results do not differ from the preliminary results as a result of that change. The final weighted-average

dumping margin for the reviewed firm is listed below in the section entitled "Final Results of Review."

EFFECTIVE DATE: October 12, 2000.

FOR FURTHER INFORMATION CONTACT: Brian Ledgerwood or Brian Smith, Import Administration, International Trade Administration, U.S. Department of Commerce, Washington, DC 20230; telephone: (202) 482-3836 or (202) 482-1766, respectively.

SUPPLEMENTARY INFORMATION:

The Applicable Statute

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act ("URAA"). In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations are to 19 CFR part 351 (April 1999).

Background

The review covers one manufacturer/exporter, Chang Chun Petrochemical Co., Ltd. ("Chang Chun"). The period of review ("POR") is May 1, 1998, through April 30, 1999.

On June 6, 2000, the Department published in the **Federal Register** the preliminary results in the third administrative review of the antidumping duty order on polyvinyl alcohol from Taiwan and intent not to revoke the order in part (65 FR 35896). On July 6, 2000, Chang Chun requested a hearing.

We invited parties to comment on the preliminary results of review. Parties filed case and rebuttal briefs on July 6 and 13, 2000, respectively. A public hearing was held on July 20, 2000. The Department has conducted this administrative review in accordance with section 751 of the Act.

Scope of Review

The product covered by this review is PVA. PVA is a dry, white to cream-colored, water-soluble synthetic polymer. This product consists of polyvinyl alcohols hydrolyzed in excess of 85 percent, whether or not mixed or diluted with defoamer or boric acid. Excluded from this review are PVAs covalently bonded with acetoacetylate, carboxylic acid, or sulfonic acid uniformly present on all polymer chains in a concentration equal to or greater than two mole percent, and PVAs covalently bonded with silane uniformly present on all polymer chains in a concentration equal to or greater than one-tenth of one mole percent.

PVA in fiber form is not included in the scope of this review.

The merchandise under review is currently classifiable under subheading 3905.30.00 of the Harmonized Tariff Schedule of the United States ("HTSUS"). Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this antidumping duty administrative review are addressed in the "Issues and Decision Memorandum" ("Decision Memorandum") from Richard W. Moreland, Deputy Assistant Secretary for Import Administration, to Troy H. Cribb, Acting Assistant Secretary for Import Administration, dated October 4, 2000, which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded, all of which are in the Decision Memorandum, is attached to this notice as an Appendix. Parties can find a complete discussion of all issues raised in this review and the corresponding recommendations in this public memorandum which is on file in the Central Records Unit, room B-099 of the main Department building. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at ia.ita.doc.gov. The paper copy and electronic version of the Decision Memorandum are identical in content.

Determination Not To Revoke Order

For the reasons outlined in the Decision Memorandum, we have determined not to revoke the antidumping duty order with respect to subject merchandise produced and also exported by Chang Chun Petrochemical Co., Ltd. because its sales were not made in commercial quantities in accordance with 19 CFR 351.222(e).

Changes Since the Preliminary Results

Based on our analysis of the comments received, we have made one change in the margin calculations. For a discussion of this change, see the "Margin Calculations" section of the Decision Memorandum.

Final Results of Review

We determine that the following weighted-average margin percentage exists for Chang Chun for the period May 1, 1998, through April 30, 1999:

Manufacturer/exporter	Margin (percent)
Chang Chun Petrochemical Co., Ltd	0.00

The Department shall determine, and the Customs Service shall assess, antidumping duties on all appropriate entries. In accordance with 19 CFR 351.106(c)(2), we will instruct the Customs Service to assess antidumping duties on all appropriate entries covered by this review if any importer-specific assessment rate calculated in the final results of this review is above *de minimis* (i.e., at or above 0.50 percent). If no importer-specific assessment rate is at or above *de minimis*, we shall instruct the Customs Service to liquidate all appropriate entries without regard to antidumping duties.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of this notice of final results of the administrative review for all shipments of PVA from Taiwan entered, or withdrawn from warehouse, for consumption on or after the date of publication, as provided by section 751(a)(1) of the Act: (1) No cash deposit rate for Chang Chun will be required for PVA from Taiwan that is produced and exported by Chang Chun; (2) for exporters not covered in this review, but covered in the less-than-fair-value ("LTFV") investigation or prior reviews, the cash deposit rate will continue to be the company-specific rate from the LTFV investigation or the prior review; (3) if the exporter is not a firm covered in this review, a prior review, or the LTFV investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 19.21 percent. This rate is the "All Others" rate from the LTFV investigation.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the

subsequent assessment of double antidumping duties.

This notice also serves as the only reminder to parties subject to administrative protective orders ("APO") of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: October 4, 2000.

Troy H. Cribb,

Acting Assistant Secretary for Import Administration.

Appendix—List of Issues

1. Commercial Quantities:
 - a. Applicability of the Commercial Quantities Regulation to Chang Chun's U.S. Sales of Subject Merchandise
 - b. Application of the Commercial Quantities Requirement and the Positive Evidence Rule
 - c. Other Commercial-Quantity-Related Issues
2. Positive Evidence Rule and Factors to Consider in Revoking the Order
3. Ministerial Error

Stainless Steel Bar From India; Notice of Extension of Time Limit for Preliminary Results of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for preliminary results of administrative review.

SUMMARY: The Department of Commerce is extending the time limit for the preliminary results of the fifth administrative review of the antidumping duty order on stainless steel bar from India. The period of review is February 1, 1999, through January 31, 2000. This extension is made pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act.

EFFECTIVE DATE: October 12, 2000.

FOR FURTHER INFORMATION CONTACT:

Ryan Langan or Blanche Ziv, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington D.C. 20230; telephone (202) 482-1279 or 482-4207, respectively.

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department of Commerce's (the Department's) regulations refer to 19 CFR Part 351, April 1999.

Extension of Time Limit for Preliminary Results

Due to the delayed initiation of the Department's cost of production investigation and the additional time required to collect and analyze cost of production data, it is not practicable to complete this review within the time limit currently mandated by section 751(a)(3)(A) (i.e., October 31, 2000). Therefore, in accordance with section 751(a)(3)(A) of the Act and 19 CFR 351.213(h)(2), the Department is extending the time limit for completion of the preliminary results by 90 days (i.e., until January 29, 2001).

Dated: October 5, 2000.

Louis Apple,

Acting Deputy Assistant Secretary for AD/CVD Enforcement.
