

transaction provisions that may be applicable to the activities of the Northern QPAM;

(ii) The Compliance Officer prepares a written report for the Exemption Review (an Exemption Report) that (A) summarizes their material activities during the twelve-month period under review; (B) sets forth any instance of noncompliance discovered during the twelve-month period under review, and any related corrective action; (C) details any change to the Policies or Training to guard against any similar instance of noncompliance occurring again; and (D) makes recommendations, as necessary, for additional training, procedures, monitoring, or additional and/or changed processes or systems, and management's actions in response to such recommendations;

(iii) In the Exemption Report, the Compliance Officer must certify in writing that to the best of their knowledge at the time: (A) the report is accurate; (B) the Policies and Training are working in a manner which is reasonably designed to ensure that the Policies and Training requirements described herein are met; (C) any known instance of noncompliance during the twelve-month period under review and any prior period, and any related correction taken to date, has been identified in the Exemption Report; and (D) the Northern QPAM complied with the Policies and Training, and/or corrected (or are correcting) any known instances of noncompliance in accordance with section III(h) above;

(iv) The Exemption Report must be provided to appropriate corporate officers of the Northern QPAM; the head of compliance and the general counsel (or their functional equivalent) of the Northern QPAM; and must be made unconditionally available to the independent auditor described above; and

(v) The Exemption Review, including the Compliance Officer's written Report, must be completed within 90 days following the end of the period to which it relates.

(n) Each Northern QPAM will maintain records necessary to demonstrate that the conditions of this exemption have been met, for six (6) years following the date of any transaction for which the Northern QPAM relies upon the relief in the exemption.

(o) Within 60 days after the effective date of the exemption, each Northern QPAM, in its agreements with, or in other written disclosures provided to Covered Plans, will clearly and prominently inform Covered Plan clients of their right to obtain a copy of

the Policies or a description (Summary Policies) which accurately summarizes key components of such Northern QPAM's written Policies developed in connection with this exemption. If the Policies are thereafter changed, each Covered Plan client must receive a new disclosure within 180 days following the end of the calendar year during which the Policies were changed. If the Northern QPAM meets this disclosure requirement through Summary Policies, changes to the Policies shall not result in the requirement for a new disclosure unless, as a result of changes to the Policies, the Summary Policies are no longer accurate. With respect to this requirement, the description may be continuously maintained on a website, provided that such website link to the Policies or Summary Policies is clearly and prominently disclosed to each Covered Plan.

(p) A Northern QPAM will not fail to meet the terms of this exemption, solely because a different Northern QPAM fails to satisfy a condition for relief under this exemption, described in sections III(c), (d), (h), (i), (j), (k), (l), (m), (n), and (o) or if the independent auditor described in section III(i) fails to comply with a provision of the exemption, other than the requirement described in section III(i)(11), provided that such failure did not result from any actions or inactions of Northern.

(q) Northern imposes its internal procedures, controls, and protocols on NTFS to reduce the likelihood of any recurrence of conduct that is the subject of the Conviction.

(r) All the material facts and representations set forth in the Summary of Facts and Representations are true and accurate at all times.

(s) With respect to an asset manager that becomes an Northern QPAM after the effective date of the exemption by virtue of being acquired (in whole or in part) by Northern or a subsidiary or affiliate of Northern (a "newly-acquired Northern QPAM"), the newly-acquired Northern QPAM would not be precluded from relying on the exemptive relief provided by PTE 84-14 notwithstanding the Conviction as of the closing date for the acquisition; however, the operative terms of the exemption shall not apply to the newly-acquired Northern QPAM until a date that is six (6) months after the closing date for the acquisition. To that end, the newly acquired Northern QPAM will initially submit to an audit pursuant to section III(i) of this exemption as of the first audit period that begins following the closing date for the acquisition. The period covered by the audit must begin

on the date on which the Northern QPAM was acquired.

(t) Relief in this exemption will terminate on the date that is 12 months following the date that a U.S. regulatory authority makes a final decision that Northern failed to comply in all material respects with any requirement imposed by such regulatory authority in connection with the Conviction.

(u) Each Northern QPAM must provide the Department with the records necessary to demonstrate that each condition of this exemption has been met within 30 days of a request by the Department.

**Exemption dates:** The exemption will be in effect during the period beginning on the earlier of September 5, 2025 or the date the exemption is published in the **Federal Register**; and ending on March 4, 2030.

**SUPPLEMENTARY INFORMATION:** The Unemployment Insurance Data Validation Program requires States to operate a system for ascertaining the validity (adherence to Federal reporting requirements) of specified unemployment insurance data they submit to the Employment and Training Administration on certain reports they are required to submit monthly or quarterly. Some of these data are used to assess performance, including for the Government Performance and Results Act of 1993 (GPRA), or determine States' grants for UI administration. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 15, 2025 (90 FR 3957).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

## SUPPLEMENTARY INFORMATION:

### I. Introduction

The NRC is considering the approval of the initial and updated DFPs submitted by ISFSI licensee. The NRC staff has prepared a final EA and FONSI determination for the initial and updated ISFSI DFPs in accordance with the NRC regulations in part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” which implement the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

The NRC requires its licensee to plan for the eventual decommissioning of their licensed facilities prior to license termination. On June 17, 2011, the NRC published a final rule in the **Federal Register** amending its decommissioning planning regulations (76 FR 35512). The final rule amended the NRC regulation, 10 CFR 72.30, “Financial assurance and recordkeeping for decommissioning,” which concerns financial assurance and decommissioning for ISFSIs. This regulation requires each holder of, or applicant for, a license under 10 CFR part 72 to submit a DFP for the NRC's review and approval. The DFP is to demonstrate the licensee's financial assurance, *i.e.*, that funds will be available to decommission the ISFSI. The NRC staff will later publish its financial analyses of the DFP submittals which will be available for public inspection in ADAMS.
