POLICY JUSTIFICATION

Brazil – UH-60L BLACK HAWK Helicopters

The Government of Brazil has requested a possible sale of 15 UH-60L BLACK HAWK helicopters with 30 T-700-GE-701C engines, 2 spare T-700-GE-701C engines, external and internal fuel tanks, warranty, internal and external hoist kits, weather radar, spare and repair parts, tools and support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services and other related elements of logistics support. The estimated cost is \$525 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in South America.

Brazil needs these aircraft to fulfill its strategic commitments for search and rescue and self-defense within the region without being dependent upon assistance from other countries. This procurement will upgrade its air mobility capability and provide for the defense of vital installations and close air support for ground forces. Brazil will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractors will be: Sikorsky Aircraft (United Technologies) Corporation of Stratford, Connecticut and General Electric Engines of Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two contractor representatives to Brazil for a period of up to two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-92**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The UH-60L BLACK HAWK weapon system contains communications and identification equipment, navigation equipment, displays and sensors. The aircraft itself does not contain sensitive technology. The highest level of classified information required to be released for training, operation, and maintenance of the BLACK HAWK helicopter is Confidential. The highest level that could be revealed through reverse engineering or testing of the end item is Confidential.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software in this proposed sale, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
