

Gas Plant Stocks of Selected Petroleum Products by PAD District and State," Table D2, "Monthly Fuel Ethanol Production and Stocks by PAD Districts," and Table D3, "Monthly Methyl Tertiary Butyl Ether (MTBE) Production and Stocks by PAD Districts."

II. Current Actions

Beginning in January 2004, EIA proposes to extend its 1986 policy of not applying disclosure limitation to statistics based on PSRS survey data to all PSRS survey information collected under a pledge of confidentiality. With increases in the number of different petroleum products, enlarged product detail breakdowns, and declines in the number of companies reporting on many of the PSRS surveys, the policy not to use disclosure limitation helps to ensure EIA's ability to disseminate detailed petroleum, supply information.

EIA is requesting public comments on this policy. This policy will result in EIA providing the maximum amount of PSRS information to the public, and will facilitate public understanding of the petroleum industry. However, it also means that a knowledgeable person may be able to estimate the value of selected data items provided by specific respondents.

III. Request for Comments

The public should comment on the actions discussed in item II. The questions below are the issues on which EIA is seeking public comments.

A. Does EIA's proposed policy not to use disclosure limitation methods for statistics based on PSRS survey information collected under a pledge of confidentiality and disseminated beginning in 2004 maximize the utility of the data to data users?

B. Is the possibility that a knowledgeable user might be able to estimate a respondent's contribution to a statistic an acceptable risk to data providers?

Comments submitted in response to this notice will be considered by EIA. The comments will also become a matter of public record.

After consideration of the comments, EIA will issue its policy regarding the use of disclosure limitation methods for statistics based on PSRS survey data. The policy will be announced in a **Federal Register** notice issued by EIA.
