Forest Service

Title: Objection to New Land Management Plans, Plan Amendments, and Plan Revisions

OMB Control Number: 0596-0158.

Summary of Collection: The process for submitting objections to new land management plans, plan amendments, and plan revisions is set forth in 36 CFR part 219, subpart B. An objector must provide their name, mailing address, telephone number, and identify the specific proposed plan, amendment, or revision that is the subject of the objection. This is the minimum information needed for a citizen or organization to explain the nature of and rational for objections to new land management plans, plan amendments, and plan revisions.

This information must accompany a concise statement explaining how the environmental disclosure documents, if any, and proposed plan, amendment, or revision are inconsistent with law, regulation, Executive Order, or policy and any recommendations for change. The Reviewing Officer then reviews the objection(s) and relevant information and responds to the objector(s) in writing.

Need and Use of the Information: The information collected (objections to new land management plans, plan amendments, and plan revisions) is analyzed and responded to by a Forest Service official. At times, this information is used to modify land and resource management planning decisions. Forest supervisors and regional forests that make decisions on land and resource management planning also use the information. Without this information, the agency's decision-making will suffer from a reduction in public input and agency relationships with the public will deteriorate.

Description of Respondents: Individuals or households; Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government.

Number of Respondents: 36.

Frequency of Responses: Reporting: Other (once).

Total Burden Hours: 360.

Charlene Parker,

Departmental Information Collection Clearance Officer.
