On October 26, 2015, the Federal Communications Commission released a Third Report and Order, *OET seeks to Supplement the Incentive Auction Proceeding Record Regarding Potential Interference Between Broadcast Television and Wireless Services*, ET Docket Nos. 13–26 and 14–14, which resolved the remaining technical issues affecting the operation of 600 MHz wireless licenses and broadcast television stations in areas where they operate on the same or adjacent channels in geographic proximity. Specifically, the Commission adopted a rule requiring wireless licensees to conduct an interference study prior to deploying or operating a wireless base station within a specified distance of a broadcast television station that is co-channel or adjacent channel to their spectrum. A wireless licensee is required to provide this interference study to the Commission upon request

or to the broadcast television station when there is an interference complaint. Federal Communications Commission.
