OMB Control Number: 3060-0849.

Title: Commercial Availability of Navigation Devices, CS Docket No. 97-80.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 215.

Estimated Time per Response: 10 mins. to 40 hrs.

Frequency of Response: Quarterly and semi-annual reporting requirements; Third Party Disclosure.

Total Annual Burden: 3,384 hours.

Total Annual Costs: \$33,450.

Needs and Uses: On April 25, 2003 the FCC released an Order and Further Notice of Proposed Rulemaking ("Order and FNPRM"), *In the Matter of Implementation of Section 304 of the Telecommunications Act of 1996, Commercial Availability of Navigation Devices*, CS Docket No. 97-80, FCC 03-89. In this Order and FNPRM the Commission extends by eighteen months the existing 2005 deadline in Section 76.1204(a)(1) prohibiting the deployment of integrated navigation devices by multichannel video programming distributors in order to promote the retail sale of non-integrated host devices. This extension was granted in light of ongoing negotiations between the cable and consumer electronics industries that may affect the technical specifications relating to host devices and associated point-of-deployment modules. The Commission also committed to completing a reassessment of the upcoming ban on integrated devices, based in part upon the status of these negotiations, prior to January 1, 2005. In order to complete its assessment in a timely manner, the FCC has requested that the cable and consumer electronics industries file progress reports with the Commission on the status of their negotiations at 90, 180, and 270 day intervals following release of the Order and FNPRM. The proposed progress reports would be used as a partial basis to elicit public comment as a part of a rulemaking proceeding pursuant to the Order and FNPRM on the appropriateness of the new July 1, 2006 ban on integrated devices, based upon the status of these negotiations. This objective is commensurate with our statutory directive in Section 629 of the

Communications Act of 1934, as amended, to act "in consultation with appropriate industry standard-setting organizations" to assure the commercial availability of navigation devices used in conjunction with services provided by multichannel video programming distributors ("MVPDs").
