

frequency tuning in order to guarantee the required ion beam properties. No other RFQ structure can deliver these features in the according frequency range of 80.5 MHz. As the experimental program conducted with reaccelerated beams spans the entire range of the periodic table of elements, the structure must ensure stable operation at low and high power. No degradation of the beam quality due to thermal stress can be tolerated. No shortfall of the experimental program due to multi-factoring of the RFQ can be accepted. Therefore a simple and reliable structure like the 4-rod RFQ is the best choice for the required task of reliable beam delivery. Justification for Duty-Free Entry: There are no similar instruments of the same general category as the foreign instrument being manufactured domestically. Application accepted by Commissioner of Customs: June 16, 2010.

Dated: July 7, 2010.

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-520-803]

#### **Polyethylene Terephthalate Film, Sheet and Strip From the United Arab Emirates: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**DATES:** *Effective Date:* July 14, 2010.

**FOR FURTHER INFORMATION CONTACT:** Andrew Huston or Jun Jack Zhao, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* (202) 482-4261 and (202) 482-1396, respectively.

#### **Background**

On December 23, 2009, the Department of Commerce (the Department) published the initiation of the administrative review of the antidumping duty order on polyethylene terephthalate film, sheet and strip from the United Arab Emirates (UAE) for the period November 06, 2008 through October 31, 2009. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 74 FR

68229 (December 23, 2009). This review covers two producers and/or exporters of the subject merchandise to the United States: FLEX Middle East FZE (FLEX) and, JBF RAK LLC (JBF).

#### **Extension of Time Limit for the Preliminary Results**

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), and section 351.213(h)(1) of the Department's regulations require the Department to issue the preliminary results of a review within 245 days after the last day of the anniversary month of the order or suspension agreement for which the administrative review was requested, and final results of the review within 120 days after the date on which the notice of the preliminary results is published in the **Federal Register**. However, if the Department determines that it is not practicable to complete the review within the aforementioned specified time limits, section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations allow the Department to extend the 245-day period to 365 days and to extend the 120-day period to 180 days.

The Department requires additional time to evaluate the questionnaire responses from FLEX and JBF in order to conduct a thorough analysis of all information on the record, specifically considering the cost and affiliation issues in this case. Therefore, the Department finds that it is not practicable to complete the preliminary results of this review within the original time limit and is extending the deadline for completion of the preliminary results of this administrative review by 120 days.

Additionally, on February 12, 2010, the Department issued a memorandum revising all case deadlines. As explained in the memorandum from the Deputy Assistant Secretary for Import Administration, the Department has exercised its discretion to toll deadlines for the duration of the closure of the Federal Government from February 5 through February 12, 2010. Thus, all deadlines in this segment of the proceeding have been extended by seven days. See Memorandum to the Record from Ronald Lorentzen, DAS for Import Administration, regarding "Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm," dated February 12, 2010. Therefore, we are hereby extending the deadline for the preliminary results by a total of 127 days; the revised deadline for the preliminary results of this

administrative review is now December 07, 2010.

This notice is issued and published pursuant to sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: July 7, 2010.

### National Oceanic and Atmospheric Administration

RIN 0648-XX47

#### **Marine Mammals; File No. 14097**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of permit.

**SUMMARY:** Notice is hereby given that National Marine Fisheries Service, Southwest Fisheries Science Center (SWFSC) (Jeremy Rusin, Principal Investigator), Protected Resources Division, 3333 N. Torrey Pines Ct., La Jolla, CA 92037, has been issued a permit to conduct scientific research on five pinniped species, 57 cetacean species, and five sea turtle species in the Pacific, Southern, Indian, and Arctic Oceans.

**ADDRESSES:** The permit and related documents are available for review upon written request or by appointment in the following offices: See **SUPPLEMENTARY INFORMATION.**

**FOR FURTHER INFORMATION CONTACT:** Kristy Beard or Amy Hapeman, (301) 713-2289.

**SUPPLEMENTARY INFORMATION:** On July 27, 2009, notice was published in the **Federal Register** (74 FR 37015) that a request for a permit to conduct scientific research on five pinniped species, 57 cetacean species, and five sea turtle species in the Pacific, Southern, Indian, and Arctic Oceans had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of
