

Between the last collection submitted and this collection, we received one comment from a private citizen concerning BSEE not having any options for electronic submission of Form BSEE-0132, *Hurricane and Tropical Storm Evacuation and Production Curtailment Statistics (GOMR)*. Our response: An electronic option does exist. The BSEE provides a secure alternative for operators to report the information required on BSEE-0132 in eWell.

Form BSEE-0011, *iSEE*, was out for comment and published in the **Federal Register** on November 18, 2013 (78 FR 69118); and on March 26, 2014 (79 FR 16810). We received two comments from a private citizen (submitted same comment for both 60-day notices) that Form BSEE-0011 should include the same or something similar as admonition to the reporter against false reporting. Our response: The BSEE would like some kind of a report of what individuals have encountered. There could be situations in which people think they saw something but aren't sure—we still would like them to report so BSEE can further investigate. With the statement on the form, we feel that this would deter individuals from reporting. Even without the statement on the form, the individuals/submitters are still subject to penalties for false statements, so we could still penalize any abuse or malicious intent of the system.
