AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Several companies that manufacture diazinon [O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate] pesticide products have asked EPA to cancel or amend the registrations for their end-use products containing diazinon to delete all indoor uses, certain agricultural uses and certain outdoor non-agricultural uses. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is announcing the Agency's receipt of these requests. These requests for voluntary termination of the above-mentioned uses through registration cancellations or amendments were submitted to EPA in December 2001, and January, February, March, April, May, June, and July 2002. EPA intends to grant these requests by issuing a cancellation order at the close of the comment period for

this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of these requests. Upon the issuance of the cancellation order, any distribution, sale, or use of diazinon products listed in this notice will only be permitted if such distribution, sale, or use is consistent with the terms of that order.

DATES: Comments on the requested amendments to delete uses and the requested registration cancellations must be submitted to the address provided below and identified by docket ID number OPP-2002-0196. Comments must be received on or before October 11, 2002.

II. Receipt of Requests to Cancel and Amend Registrations to Delete Uses

A. Background

Certain registrants requested in letters dated June, August, and September 2001, that their diazinon registrations be amended to delete all indoor uses, certain agricultural uses, and any other uses that the registrants do not wish to maintain. The requests also included deletions of outdoor non-agricultural uses from the labeling of certain end-use products so that such products would be labeled for agricultural uses only. Similarly, other diazinon end-use registrants requested voluntary cancellation of their diazinon end-use

registrations with indoor use and/or certain outdoor non-agricultural uses, and any other uses that the registrants do not wish to maintain. Pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is announcing the Agency's receipt of these requests. These requested cancellations and amendments are consistent with the requests in December 2000 by the manufacturers of diazinon technical products, and EPA's approval of such requests, to terminate all indoor uses and certain agricultural uses from their diazinon product registrations because of EPA's concern with the potential exposure risk, especially to children. The indoor uses and agricultural uses subject to cancellation are identified in List 1 below:

List 1—Uses to be Canceled

1. *Indoor uses:* Pet collars, or inside any structure or vehicle, vessel, or aircraft or any enclosed area, and/or on any contents therein (except mushroom houses), including but not limited to food/feed handling establishments, greenhouses, schools, residences, commercial buildings, museums, sports facilities, stores, warehouses and hospitals.

2. *Agricultural uses:* Alfalfa, bananas, Bermuda grass, dried beans, dried peas, celery, red chicory (radicchio), citrus, clover, coffee, cotton, cowpeas,

cucumbers, dandelions, forestry, (ground squirrel/rodent burrow, dust stations for public health use), kiwi, lespedeza, parsley, parsnips, pastures, peppers, potatoes (Irish and sweet), sheep, sorghum, squash (winter and summer), rangeland, Swiss chard, tobacco, and turnips (roots and tops).

As mentioned above, the requests announced in this **Federal Register** notice also include registration cancellations and/or amendments to terminate certain uses that the registrants do not wish to maintain. The specific requests are identified in Tables 1 and 2.

EPA has begun the process of reviewing the requested amendments which cannot be finalized until the end of the public comment period and provided that no substantial comments need to be addressed. EPA also intends to grant the requested product and use cancellations by issuing a cancellation order at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of these requests.

B. Requests for Voluntary Cancellation of End-Use Products

The registrants and end-use product registrations containing diazinon for which cancellation was requested are identified in the following Table 1.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that EPA cancel any of their pesticide registrations. Section 6(f)(1)(B) of FIFRA requires that EPA provide a 30-day period in which the public may comment before the Agency may act on the request for voluntary cancellation. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period.
2. The Administrator determines that continued use of the pesticide would

pose an unreasonable adverse effect on the environment.

In this case, all of the registrants have requested that EPA waive the 180-day comment period. In light of this request, EPA is granting the request to waive the 180-day comment period and is providing a 30-day public comment period before taking action on the requested cancellations. Because of risk concerns posed by certain uses of diazinon, EPA intends to grant the requested cancellations at the close of the comment period for this announcement unless the Agency receives any substantive comment within the comment period that would

merit its further review of these requests.

C. Requests for Voluntary Amendments To Delete Uses From the Registrations of End-Use Products

Pursuant to section 6(f)(1)(A) of FIFRA, the following companies have submitted a request to amend the registrations of their pesticide end-use products containing diazinon to delete certain uses from certain products. The following Table 2 identifies the registrants, the product registrations that they wish to amend, and the uses that they wish to delete through registration amendments.

TABLE 2.—END-USE PRODUCT REGISTRATION AMENDMENT REQUESTS

Knox Fertilizer Co. Inc.	8378–32	Shaw's 5% Diazinon Insect Granules: Celery

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be amended to delete one or more pesticide uses. The afore mentioned companies have requested to amend their registrations and have requested that EPA waive the 180-day comment period. In light of this request, EPA is granting the request to waive the 180-day comment period and is providing a 30-day public comment period before taking action on the requested amendments to delete uses. Because of risk concerns posed by certain uses of diazinon, EPA intends to grant the requested amendments to delete uses at the close of the comment period for this announcement, unless the Agency receives any substantive comment within the comment period that would merit its further review of these requests.

III. Proposed Existing Stocks Provisions

EPA received requests for voluntary cancellation of the diazinon registrations identified in Table 1 and requests for amendments to terminate certain uses of the diazinon registrations identified in Table 2. Pursuant to section 6(f) of FIFRA, EPA intends to grant these requests by issuing a cancellation order at the end of the 30-day comment period unless the Agency receives any substantive comment within the comment period that would merit its further review of these requests. In the event that EPA issues a cancellation order, EPA intends to include in that order the existing stocks provisions set forth in this section. For purposes of that cancellation order, the term "existing stocks" will be defined, pursuant to EPA's existing stocks policy at 56 FR 29362, of June 26, 1991, as those stocks of a registered pesticide product which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation or amendment. Any distribution, sale, or use of existing stocks after the effective date of the cancellation order that the Agency intends to issue that is not consistent with the terms of that order will be considered a violation of section 12(a)(2)(K) and/or 12(a)(1)(A) of FIFRA.

EPA intends that the cancellation order includes the following existing stocks provisions:

1. *Distribution or sale of products bearing instructions for use on agricultural crops.* The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use on the agricultural crops identified in List 1 will not be lawful under FIFRA 1-year

after the effective date of the cancellation order. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 1 or 2 that bears instructions for any of the agricultural uses identified in List 1 after the effective date of the cancellation order. However, it is lawful to ship such stocks for export consistent with the requirements of section 17 of FIFRA, or to properly dispose of the existing stocks in accordance with all applicable law.

2. *Distribution or sale of products bearing instructions for use on outdoor non-agricultural sites.* The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites will not be lawful under FIFRA 1-year after the effective date of the cancellation order. Persons other than the registrant may continue to sell or distribute the existing stocks of any product listed in Table 1 or 2 that bears instructions for use on outdoor non-agricultural sites after the effective date of the cancellation order. However, it is lawful to ship such stocks for export consistent with the requirements of section 17 of FIFRA, or to properly dispose of the existing stocks in accordance with all applicable law.

3. *Distribution or sale of products bearing instructions for use on indoor sites.* The distribution or sale of existing stocks by the registrant of any product listed in Table 1 or 2 that bears instructions for use at or on any indoor sites (except mushroom houses), shall not be lawful under FIFRA as of the effective date of the cancellation order, except for shipping stocks for export consistent with the requirements of section 17 of FIFRA, or properly disposing of the existing stocks in accordance with all applicable law.

4. *Retail and other distribution or sale of existing stock of products for indoor use.* The distribution or sale of existing stocks by any person other than the registrants of products listed in Table 1 or 2 bearing instructions for any indoor uses except mushroom houses will not be lawful under FIFRA after December 31, 2002, except for shipping stocks for export consistent with the requirements of section 17 of FIFRA, or properly disposing of the existing stocks in accordance with all applicable law.

5. *Use of existing stocks.* EPA intends to permit the use of existing stocks of products listed in Table 1 or 2 until such stocks are exhausted, provided such use is in accordance with the existing labeling of that product.
