

= 10 hours). The total cost of compliance for the annual burden is \$3,160 ($\316×5 hours per response $\times 2$ responses = \$3,160). In addition, estimated overhead costs for printing, copying, and postage equal to 35% of the value of labor costs amount to \$553 per response ($\$1,580 \times 35\%$). Thus, the Commission estimates the total annualized cost burden would be \$1,106 ($\553×2 respondents).

An estimated two respondents will meet certain volume thresholds requiring them to provide notice to any user upon any decision to deny or limit that user's access to the system, and these notice obligations will be triggered an estimated 27 \times per year for each respondent. The Commission estimates that the average compliance burden for each response would be 1 hour of in-house professional work at \$316 per hour. Thus, the total compliance burden per year is 54 hours (2 respondents $\times 27$ responses each $\times 1$ hour = 54 hours). The total cost of compliance for the annual burden is \$17,064 ($\316×1 hour per response $\times 54$ responses = \$17,064). In addition, estimated overhead costs for printing, copying, and postage equal to 35% of the value of labor costs amount to \$110.60 per response ($\$316 \times 35\%$). Thus, the Commission estimates the annualized cost burden for each respondent would be \$2986.20 ($\110.60×27 responses per respondent) and the total annualized cost burden for all respondents would be \$5972.40 ($\110.60×2 respondents $\times 27$ responses per respondent).

An estimated two respondents will meet certain volume thresholds requiring them to keep records relating to any steps taken to comply with systems capacity, integrity, and security requirements under Rule 301. The Commission estimates that the average compliance burden for each response would be 10 hours of in-house professional work at \$316 per hour. Thus, the total compliance burden per year is 20 hours (2 respondents $\times 10$ hours = 20 hours). The total cost of compliance for the annual burden is \$6,320 ($\316×20 hours = \$6,320). In addition, estimated overhead costs for printing, copying, and postage equal to 35% of the value of labor costs amount to \$1,106 per response ($\$3,160 \times 35\%$). Thus, the Commission estimates the total annualized cost burden would be \$2,212 ($\$1,106 \times 2$ respondents).

An estimated two respondents will meet certain volume thresholds requiring them to provide a notice to the Commission to report any systems outages, and these notice obligations will be triggered an estimated 5 times per year for each respondent. The

Commission estimates that the average compliance burden for each response would be .25 hours of in-house professional work at \$316 per hour. Thus, the total compliance burden per year is 2.5 hours (2 respondents $\times 5$ responses each $\times .25$ hours = 2.5 hours). The total cost of compliance for the annual burden is \$790 ($\$316 \times .25$ hours per response $\times 10$ responses = \$790). In addition, estimated overhead costs for printing, copying, and postage equal to 35% of the value of labor costs amount to \$27.65 per response ($\$79 \times 35\%$). Thus, the Commission estimates the annualized cost burden for each respondent would be \$138.25 ($\27.65×5 responses per respondent) and the total annualized cost burden for all respondents would be \$276.50 ($\27.65×2 respondents $\times 5$ responses per respondent).

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,³ in general, and furthers the objectives of Section 6(b)(4),⁴ in particular, in that it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities. Since the Exchange no longer trades equities in its market, the proposed rule change will simply its Schedule of Fees by eliminating the fees related to equities.
