

B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a proposed collection of information to OMB for review entitled “Identity, Credential, and Access Management System.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on February 13, 2024, 89 FR 10105.

1. *The title of the information collection:* Identity, Credential, and Access Management System.

2. *OMB approval number:* An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission:* New.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* Once, at the time access is requested.

6. *Who will be required or asked to respond:* External partners and members

of the public that have a need to use NRC’s secure web-based applications.

7. *The estimated number of annual responses:* 250.

8. *The estimated number of annual respondents:* 250.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 62.5.

10. *Abstract:* The NRC collects information from external partners and members of the public that have a need to use NRC’s secure web-based applications. An applicant can request an external partner digital credential using NRC’s web-based credential enrollment system. Once the applicant has obtained an NRC digital credential, it can be used to access select NRC secure web-based applications directly over the internet. The information collected is limited to identity information required for credential issuance processes and includes: phone numbers, email addresses, physical mailing addresses, facial photographs, photo identity documents, date of birth, and identity information from a U.S. driver’s license, U.S. Government PIV card, U.S. Passport, U.S. Military ID card, U.S. Military dependent’s ID card, Permanent Resident card, Alien Registration Receipt card (Form I-551) or Employment Authorization Document (Form I-766).

I. Discussion

On March 28, 2024, TerraPower, LLC (TerraPower), on behalf of US SFR Owner, LLC., a wholly owned subsidiary of TerraPower, filed an application for a construction permit for a single-unit power reactor facility located in Lincoln County, Wyoming, pursuant to section 103 of the Atomic Energy Act, as amended, and part 50 of title 10 of the *Code of Federal Regulations* (10 CFR), “Domestic Licensing of Production and Utilization Facilities.” The single-unit facility is to be identified as Kemmerer Power Station, Unit 1 and would be based on

the TerraPower and General Electric-Hitachi Sodium reactor design which is a pool-type sodium fast reactor using metal fuel.

The application submitted on March 28, 2024, is available in ADAMS under Package Accession No. ML24088A059. Along with other documents, the ADAMS package includes the transmittal letter (ADAMS Accession No. ML24088A060), the preliminary safety analysis report (ADAMS Accession No. ML24088A065), and the environmental report (ADAMS Accession No. ML24088A072). The application was supplemented on May 2, 2024 (ADAMS Accession No. ML24123A242). The information submitted by the applicant includes certain administrative information submitted pursuant to 10 CFR 50.33, such as on financial qualifications; technical information submitted pursuant to 10 CFR 50.34; and the environmental report submitted pursuant to 10 CFR part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions." These notices are being provided in accordance with the requirements in 10 CFR 50.43(a)(3).

The NRC staff is currently undertaking its acceptance review of the application. If the application is accepted for docketing, a subsequent **Federal Register** notice will be issued that addresses the acceptability of the construction permit application for docketing and provisions for participation of the public in the permitting process.

Dated: May 13, 2024.
