

facility development and operation, many factors and features will be analyzed including, but not limited to: Topography, geology, soils, hydrology, biological resources, cultural resources, hazardous materials, aesthetics, fiscal considerations, population/employment/housing characteristics, community services and facilities, land uses, utility services, transportation systems, meteorological conditions, air quality, and noise.

Alternatives

In developing the DEIS, the No Action alternative, other actions considered and eliminated, and alternatives sites for the proposed medium-security Federal correctional institution will be examined.

Scoping Process

During the preparation of the DEIS, there will be opportunities for public involvement in order to determine the issues to be examined. A Public Scoping Meeting will be held at 7 p.m., Tuesday, May 11, 2004, at City Hall, 168 Main Street, Berlin, New Hampshire. The meeting location, date, and time will be well-publicized and have been arranged to allow for the public as well as interested agencies and organizations to attend and formally express their views on the scope and significant issues to be studied as part of the DEIS process. The Scoping Meeting is being held to provide for timely public comments and understanding of Federal plans and programs with possible environmental consequences as required by the National Environmental Policy Act of 1969, as amended, and the National Historic Preservation Act of 1966, as amended.

Availability of DEIS

Public notice will be given concerning the availability of the DEIS for public review and comment.

Contact

Questions concerning the proposed action and the DEIS may be directed to: Issac J. Gaston, Site Selection Specialist, Site Selection and Environmental Review Branch, U.S. Department of Justice—Federal Bureau of Prisons, 320 First Street, NW., Washington, DC 20534 Telephone: 202-514-6470/ Facsimile: 202-616-6024/ siteselection@bop.gov.

Dated: April 2, 2004.

Pamela J. Chandler,

Acting Chief, Site Selection and Environmental Review Branch, Federal Bureau of Prisons.

BILLING CODE 4410-05-P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "Survey of Occupational Injuries and Illnesses." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section of this notice on or before June 7, 2004.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number 202-691-7628 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT:

Amy A. Hobby, BLS Clearance Officer, telephone number 202-691-7628. (See **ADDRESSES** section).

SUPPLEMENTARY INFORMATION:

I. Background

Section 24(a) of the Occupational Safety and Health Act of 1970 requires the Secretary of Labor to develop and maintain an effective program of collection, compilation, and analysis of statistics on occupational injuries and illnesses. The Commissioner of Labor Statistics has been delegated the responsibility for "Furthering the purpose of the Occupational Safety and Health Act by developing and maintaining an effective program of collection, compilation, analysis and publication of occupational safety and

health statistics." The BLS fulfills this responsibility, in part, by conducting the Survey of Occupational Injuries and Illnesses in conjunction with participating State statistical agencies. The BLS Survey of Occupational Injuries and Illnesses provides the nation's primary indicator of the progress towards achieving the goal of safer and healthier workplaces. The survey produces the overall rate of occurrence of work injuries and illnesses by industry which can be compared to prior years to produce measures of the rate of change. These data are used to improve safety and health programs and measure the change in work-related injuries and illnesses.

II. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

Office of Management and Budget clearance is being sought for the Survey of Occupational Injuries and Illnesses. Revisions have been made to the 2004 survey to reflect the current Occupational Safety and Health Administration (OSHA) recordkeeping regulations. The survey measures the overall rate of occurrence of work injuries and illnesses by industry. For the more serious injuries and illnesses, those with days away from work, the survey provides detailed information on the injured/ill worker (age, sex, race, industry, occupation, and length of service), the time in shift, and the circumstances of the injuries and illnesses classified by standardized codes (nature of the injury/illness, part of body affected, primary and secondary

sources of the injury/illness, and the event or exposure which produced the injury/illness).

Survey data are used to assess the Nation's progress in improving the safety and health of America's work places; to prioritize scarce Federal and State resources; to guide the development of injury and illness prevention strategies; and to support

OSHA and State safety and health standards and research. Data are essential for evaluating the effectiveness of Federal and State programs for improving work place safety and health. For these reasons, it is necessary to provide estimates separately for participating States.

Type of Review: Revision of currently approved collection.

Agency: Bureau of Labor Statistics.

Title: Survey of Occupational Injuries and Illnesses.

OMB Number: 1220-0045.

Affected Public: Businesses or other for-profit; Not-for-profit institutions; Farms; State, Local or Tribal Government.

Form	Total respondents	Frequency	Total responses	Average time per response	Estimated total burden
BLS 9300	230,000	Annually	230,000	.4	91,666
Prenotification Package	175,000 out of 230,000	Annually	175,000 out of 230,000	hour 1.35 hours	hours. 236,000 hours.
Totals	230,000		230,000		327,666 hours.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 26th day of March, 2004.

Cathy Kazanowski,

Chief, Division of Management Systems,
Bureau of Labor Statistics.

BILLING CODE 4510-24-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-336 And 50-423]

Dominion Nuclear Connecticut, Inc., Millstone Power Station, Units 2 and 3; Notice of Intent To Prepare An Environmental Impact Statement and Conduct Scoping Process

Dominion Nuclear Connecticut, Inc. (DNC) has submitted applications for renewal of Facility Operating Licenses, DPR-65 and NPF-49 for an additional 20 years of operation at the Millstone Power Station, Units 2 and 3 (MPS). MPS is located on the north shore of Long Island Sound in Waterford, Connecticut, approximately 40 miles southeast of Hartford, Connecticut. The operating licenses for MPS, Units 2 and 3, expire on July 31, 2015, and November 25, 2025, respectively. The applications for renewal were received on January 22, 2004, pursuant to 10 CFR Part 54. A notice of receipt and availability of the applications, which

included the environmental report (ER), was published in the **Federal Register** on February 3, 2004, (69 FR 5197). A notice of acceptance for docketing of the applications for renewal of the facility operating license was published in the **Federal Register** on March 12, 2004, (69 FR 11897). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal applications and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with Section 106 of the National Historic Preservation Act in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA).

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, DNC submitted the ER as part of the applications. The ER was prepared pursuant to 10 CFR Part 51 and is available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-

397-4209, or 301-415-4737, or by e-mail to pdr@nrc.gov. The applications may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/millstone.html>. In addition, the Waterford Public Library, located at 49 Rope Ferry Road, Waterford, Connecticut 06385, and the Thames River Campus Library at Three Rivers Community College, 574 New London Turnpike, Norwich, Connecticut 06360, have agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) in support of the review of the applications for renewal of the MPS operating licenses for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with the National Environmental Policy Act of 1969 (NEPA) and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in the scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:
