

Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management

systems practices) that are developed or adopted by voluntary consensus standards bodies.

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Department of Homeland Security Management Directive 5100.1 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have concluded under the Instruction that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this rule is categorically excluded, under figure 2–1, paragraph (34)(h), of the Instruction, from further environmental documentation.

Under figure 2–1, paragraph (34)(h), of the Instruction, an environmental analysis checklist and a categorical exclusion determination are not required for this rule.

33 CFR Part 110

[Docket No. USCG–2008–0076]

RIN 1625–AA01

Anchorage Regulations; Yarmouth, ME, Casco Bay; Correction

AGENCY: Coast Guard, DHS.

ACTION: Correcting amendments.

SUMMARY: The Coast Guard published a final rule in the **Federal Register** on March 12, 2008 (73 FR 13125), creating three special anchorage areas in Yarmouth, Maine. That rule contained

imprecise coordinates. With this document the Coast Guard is correcting the coordinates of the boundaries to the three Yarmouth special anchorages listed in 33 CFR 110.5, in response to more detailed information received from the National Ocean Service (NOS). These changes will not affect the locations or the size of the anchorages.

DATES: This correction is effective November 3, 2008.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call Mr. John J. Mauro, First Coast Guard District Prevention and Waterways, (617) 223-8355, E-mail: John.J.Mauro@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background

On March 12, 2008, we published a final rule entitled Anchorage Regulations; Yarmouth, ME, Casco Bay in the **Federal Register** (73 FR 13125) establishing three Special Anchorage areas in Yarmouth, Maine, Casco Bay. However, NOS notified the Coast Guard that the geographic coordinates for Madeleine and Sandy Point Special Anchorage and Drinkwater Point and Princes Point Special Anchorages used in the NPRM and final rules created a boundary that did not entirely enclose the anchorage areas. NOS is able to plot very precise coordinates, and determined that the published coordinates allowed a "gap" of a few yards in the boundaries of these anchorages. The Coast Guard has reviewed the updated coordinates and graphics sent by NOS and agrees with NOS's assessment. We have issued this correction with the updated coordinates for the boundaries according to NOS's assessment. We will notify mariners of this correction via the Local Notice to Mariners once this rule appears in the **Federal Register**.

Need for Correction

As published, the final rule contains errors that need to be clarified. The boundaries of an anchorage area should completely enclose the area, without any gaps that could create confusion when represented on a chart.
