[Docket No. CP25-30-000]

Florida Gas Transmission Company, LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the South Central Louisiana Project

On December 13, 2024, Florida Gas Transmission Company, LLC (FGT) filed an application in Docket No. CP25-30-000 requesting a Certificate of Public Convenience and Necessity pursuant to section 7(c) the Natural Gas Act to construct and operate certain natural gas pipeline facilities. The proposed project is known as the South Central Louisiana Project (Project), and would increase certified capacity and throughput at existing compressor stations. FGT would construct, modify, install, own, operate and maintain certain natural gas compressor stations and auxiliary facilities in St. Landry and East Baton Rouge Parishes, Louisiana. The purpose of the Project is to provide an additional firm transportation capacity of up to 75,000 million British thermal units per day (MMBtu/d) of natural gas.

On December 31, 2024, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing Federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a Federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental

review.¹ The EA will be issued for a 30-day comment period.

Schedule for Environmental Review

Issuance of EA—July 25, 2025
90-day Federal Authorization Decision Deadline²—October 23, 2025

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

FGT proposes to increase certificated capacity and increase throughput at existing FGT compressor stations 7.5 and 8, and construct, modify, install, own, operate, and maintain certain natural compression facilities and auxiliary facilities, all located in St. Landry and East Baton Rouge Parishes, Louisiana.

The South Central Louisiana Project would uprate one existing natural gas-fired compressor turbine unit and re-wheel three existing natural gas-fired compressor turbine units in St. Landry Parish, Louisiana; construct one new natural gas-fired turbine compressor unit East Baton Rouge Parish, Louisiana; construct approximately 700 feet of new 30-inch suction and 30-inch discharge header piping at CS8; and install/modify auxiliary facilities as needed.

Background

On January 30, 2025, the Commission issued a *Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed South Central Louisiana Project* (Notice of Scoping). The Notice of Scoping was sent to affected landowners; Federal, State, and local government agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. All substantive comments will be addressed in the EA.

[Docket No. AD25-7-000]

Meeting the Challenge of Resource Adequacy in Regional Transmission Organization and Independent System Operator Regions; Notice of Commissioner-Led Technical Conference

Take notice that the Federal Energy Regulatory Commission (Commission) will convene a Commissioner-led technical conference in the above-referenced proceeding. The purpose of this technical conference is to discuss generic issues related to resource

adequacy constructs, including the roles of capacity markets in the Regional Transmission Organization (RTO)/Independent System Operator (ISO) regions that utilize them and alternative constructs in regions without capacity markets. The Commission does not intend to discuss at this technical conference any specific proceeding pending before the Commission.

Broadly, issues to be explored at the technical conference may include: current and impending risks to resource adequacy, including increasing load forecasts, potential resource shortfalls and reasons therefor; the efficiency and effectiveness of capacity markets in achieving resource adequacy at just and reasonable rates; design and performance comparisons between capacity markets and alternative resource adequacy constructs; and the roles and interests of states or other entities with legal authority in achieving resource adequacy.

The two-day technical conference will convene on Wednesday, June 4, 2025, and Thursday, June 5, 2025 in the Kevin J. McIntyre Commission Meeting Room at the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

Individuals interested in participating as panelists should submit a self-nomination email by 5:00 p.m. Eastern Time on Wednesday March 12, 2025, to Resource-Adequacy-RTOs-Conference@ferc.gov. Each nomination should state the proposed panelist's name, contact information, organizational affiliation, and indicate the general area on which the proposed panelist would like to speak.

The technical conference will be open to the public. Advance registration is not required, and there is no fee for attendance. A supplemental notice will be issued prior to the conference with further details regarding the agenda and any changes in logistics. Information will also be posted on the Calendar of Events on the Commission's website, www.ferc.gov, prior to the event.

The technical conference will be transcribed and webcast. Transcripts will be available for a fee from Ace Reporting (202-347-3700). A link to the webcast of this event will be available in the Commission Calendar of Events at www.ferc.gov. The Commission provides technical support for the free webcasts. Please call 202-502-8680 or email customer@ferc.gov if you have any questions.

Commission technical conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an email to accessibility@ferc.gov

or call toll free 1-866-208-3372 (voice) or 202-208-8659 (TTY) or send a fax to 202-208-2106 with the required accommodations.

For more information about this technical conference, please contact Tim Bialecki at timothy.bialecki@ferc.gov or 202-502-8403.
