 BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-309-OLA; ASLBP No. 00-780-03-OLA]

Maine Yankee Atomic Power Company; Establishment of Atomic Safety and Licensing Board

Pursuant to delegation by the Commission dated December 29, 1972, published in the **Federal Register**, 37 FR 28,710 (1972), and Sections 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717, 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established to preside over the following proceeding.

Maine Yankee Atomic Power Company
 Maine Yankee Atomic Power Station

This Board is being established pursuant to a notice of consideration of issuance of amendment to facility operating license, proposed no significant hazards consideration determination, and opportunity for a hearing published by the Commission on May 17, 2000, in the **Federal Register** (65 FR 31,354, 31,357). The January 13, 2000 license amendment request at issue would add a license condition that requires Maine Yankee Atomic Power Company to implement and maintain in effect all provisions of the License Termination Plan. Two petitioners, Friends of the Coast—Opposing Nuclear Pollution and the State of Maine, seek to intervene and request a hearing regarding the amendment request.

The Board is comprised of the following administrative judges:

Thomas S. Moore, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Thomas D. Murphy, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Thomas S. Elleman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

All correspondence, documents and other materials shall be filed with the Judges in accordance with 10 C.F.R. § 2.701.

Issued at Rockville, Maryland, this 7th day of July 2000.

G. Paul Bollwerk, III,
*Chief Administrative Judge, Atomic Safety
 and Licensing Board Panel.*

 BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 40-3453-MLA-5; ASLBP No. 00-781-07-MLA]

Moab Mill Reclamation Trust; Designation of Presiding Officer

Pursuant to delegation by the Commission, *see* 37 FR 28,710 (Dec. 29, 1972), and the Commission's regulations, *see* 10 CFR §§ 2.1201, 2.1207, notice is hereby given that (1) a single member of the Atomic Safety and Licensing Board Panel is designated as Presiding Officer to rule on petitions for leave to intervene and/or requests for hearing; and (2) upon making the requisite findings in accordance with 10 CFR § 2.1205(h), the Presiding Officer will conduct an adjudicatory hearing in the following proceeding:

Moab Mill Reclamation Trust Moab, Utah

The hearing will be conducted pursuant to 10 CFR Part 2, Subpart L, of the Commission's Regulations, "Informal Hearing Procedures for Adjudications in Materials and Operator Licensing Proceedings." This proceeding concerns a May 17, 2000 request for hearing submitted by petitioner Sarah M. Fields. The request was filed in response to a March 31, 2000 request from Moab Mill Reclamation Trust (MMRT) to revise site-reclamation milestones in its source material license for the Moab, Utah facility. The notice of receipt of the MMRT request to revise site-reclamation milestones and opportunity for hearing was published in the **Federal Register** on April 17, 2000 (65 FR 20,490).

The Presiding Officer in this proceeding is Administrative Judge Charles Bechhoefer. Pursuant to the provisions of 10 CFR §§ 2.722, 2.1209, Administrative Judge Frederick J. Shon has been appointed to assist the Presiding Officer in taking evidence and in preparing a suitable record for review.

All correspondence, documents, and other materials shall be filed with Judges Bechhoefer and Shon in accordance with 10 CFR § 2.1203. Their addresses are:

Administrative Judge Charles Bechhoefer,
 Presiding Officer, Atomic Safety and
 Licensing Board Panel, U.S. Nuclear

Regulatory Commission, Washington, DC 20555-0001
 Administrative Judge Frederick J. Shon,
 Special Assistant, Atomic Safety and
 Licensing Board Panel, U.S. Nuclear
 Regulatory Commission, Washington, DC 20555-0001

Issued at Rockville, Maryland, this 7th day of July 2000.

G. Paul Bollwerk, III,
*Chief Administrative Judge, Atomic Safety
 and Licensing Board Panel.*

 BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-272 and 50-311]

Public Service Electric and Gas Co.; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Public Service Electric and Gas Company (PSE&G, or the licensee) to withdraw its November 24, 1999, application, as supplemented by letter dated February 10, 2000, for the proposed amendment to Facility Operating License Nos. DPR-70 and DPR-75 for the Salem Nuclear Generating Station, Unit Nos. 1 and 2 (Salem), located in Salem County, New Jersey.

The proposed amendment would have revised charcoal filter testing requirements defined in the Salem Technical Specifications (TSs) for the Auxiliary Building Ventilation (ABV) System, the Control Room Envelope Air Conditioning System (CREACS), and the Fuel Handling Building Ventilation (FHV) System to be consistent with Generic Letter 99-02, "Laboratory Testing of Nuclear-Grade Activated Charcoal," dated June 3, 1999.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on May 17, 2000 (65 FR 31359). However, by letter dated May 31, 2000, the licensee withdrew the proposed change. The May 31, 2000, letter also provided a new application for a license amendment to change the Salem TSs concerning ABV, CREACS, and FHV charcoal filter testing which effectively superceded PSE&G's original November 24, 1999, request.

For further details with respect to this action, see the application for amendment dated November 24, 1999, supplemental letter dated February 10, 2000, and the licensee's letter dated May 31, 2000, which withdrew the

application for license amendment. The above documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 6th day of July 2000.

For the Nuclear Regulatory Commission.

Robert J. Fretz,

Project Manager, Section 2, Project Directorate I, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-11]

Sacramento Municipal Utility District; Notice of Issuance of Materials License SNM-2510, Rancho Seco Independent Spent Fuel Storage Installation

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued a Materials License under the provisions of Title 10 of the Code of Federal Regulations, Part 72 (10 CFR Part 72), to the Sacramento Municipal Utility District (SMUD), authorizing receipt and storage of spent fuel into an independent spent fuel storage installation (ISFSI) located on site at its Rancho Seco Nuclear Generating Station in Sacramento County, California.

The function of the ISFSI is to provide interim storage in a dry cask storage system for up to 228.8 metric tons of uranium contained in intact and damaged fuel assemblies and associated control components from the prior operation of the Rancho Seco Nuclear Generating Station. The dry cask storage system that is authorized for use is a Rancho Seco site-specific model of the NUHOMS-24P storage system designed by Transnuclear West Inc. The license for an ISFSI under 10 CFR Part 72 is issued for 20 years, but the licensee may seek to renew the license, if necessary, prior to its expiration.

The Commission's Office of Nuclear Material Safety and Safeguards (NMSS) has completed its environmental, safeguards, and safety reviews in support of issuance of this license.

Following receipt of the application filed October 4, 1991, a "Notice of Consideration of Issuance of Materials License for the Storage of Spent Fuel and Opportunity for Hearing" was

published in the **Federal Register** on January 13, 1992 (57 FR 1286). The "Environmental Assessment (EA) Related to the Construction and Operation of the Rancho Seco Nuclear Generating Station Independent Spent Fuel Storage Installation and Finding of No Significant Impact," was issued and noticed in the **Federal Register** (59 FR 41797, August 15, 1994) in accordance with 10 CFR Part 51. The scope of the EA included the construction and operation of an ISFSI on the Rancho Seco Nuclear Generating Station site including impacts derived from use of the NUHOMS-24P storage system.

The staff has completed its safety review of the Rancho Seco ISFSI site application and safety analysis report. The NRC staff's "Safety Evaluation Report for the Rancho Seco Independent Spent Fuel Storage Installation," was issued on June 30, 2000. Materials License SNM-2510, the staff's Environmental Assessment, Safety Evaluation Report, and other documents related to this action are available electronically for public inspection at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC 20555, or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Dated at Rockville, Maryland, this 30th day of June 2000.

For the Nuclear Regulatory Commission.

E. William Brach,

Director, Spent Fuel Project Office, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NUREG-0940]

Enforcement Actions: Significant Actions Resolved

AGENCY: Nuclear Regulatory Commission.

ACTION: Request for comments.

SUMMARY: The Nuclear Regulatory Commission (NRC) is announcing its intent to use the NRC website to communicate a consolidation of enforcement actions and to discontinue publication of the paper document, NUREG-0940, "Enforcement Actions: Significant Actions Resolved," which contains significant enforcement actions that have been issued. The NRC is

taking this action because this material is now available electronically on the NRC website. The Commission is also seeking public comment on this action.

DATES: The comment period expires September 11, 2000. Unless the Commission takes further action, the final edition of NUREG-0940 will be the edition published in the summer of 2000.

ADDRESSES: Submit written comments to David L. Meyer, Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Hand deliver comments to: 11555 Rockville Pike, Rockville, Maryland, between 7:30 a.m. and 4:15 p.m., Federal workdays. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC.

FOR FURTHER INFORMATION CONTACT: Renee Pedersen, Senior Enforcement Specialist, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001 (301) 415-2741, e-mail rmp@nrc.gov.

SUPPLEMENTARY INFORMATION:

Background

In 1982, the Enforcement Staff of the NRC's then Office of Inspection and Enforcement commenced publishing NUREG-0940, "Enforcement Actions: Significant Actions Resolved." This NUREG is a compilation of the letters, Notices, and Orders sent to licensees with respect to significant enforcement actions (also referred to as escalated actions) issued in a period of time, most recently, six months. The NUREG has been published to assist licensees in taking action to improve safety by avoiding future violations similar to those described in the publication. The NUREG was also published to comply with Commission direction to distribute a list of persons subject to prohibition orders issued under the Deliberate Misconduct Rule (January 13, 1998; 63 FR 1890).

NUREG-0940 is now published twice a year. It is distributed to all power reactor site managers, approximately 2500 materials licensees, and all of the states. The latest issue of NUREG-0940, Vol. 18, No. 1, published August 1999, contained a total of 847 printed pages.

The Office of Enforcement (OE) has established a Home page on the NRC website (www.nrc.gov/OE). The OE Home page contains information on the OE staff, the current Enforcement Policy, the text of escalated Enforcement Actions issued since 1996, upcoming
