Proposed Information Collection; Comment Request; Northwest Region Gear Identification Requirements; Correction

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce published a notice of proposed information collection on August 10, 2001. This notice makes a correction to that document.

SUPPLEMENTARY INFORMATION:

Need for Correction

In the August 10, 2001, issue of the **Federal Register** (FR Doc. 01-20118) "Proposed Information Collection; Comment Request; Northeast Region Gear Identification Requirements," the title should have read "Proposed Information Collection; Comment Request; Northwest Region Gear Identification Requirements." All other information remains unchanged.

Dated: August 31, 2001.

Gwellnar Banks,
Management Analyst, Office of the Chief Information Officer.

Availability of Great Lakes Coastal Restoration Grants Implementation Plan

AGENCY: National Oceanic and Atmospheric Administration, U.S. Department of Commerce.

ACTION: Notice of availability of Great Lakes Coastal Restoration Grants Implementation Plan.

SUMMARY: Notice is hereby given of the availability of the Great Lakes Coastal Restoration Grants Implementation Plan. The Commerce, State, Justice Appropriations Act for 2001 created the Great Lakes Coastal Restoration Grants program. This program provides funding for competitive matching grants to state and local governments for community based coastal restoration activities in the Great Lakes region. As required, the National Oceanic and Atmospheric Administration (NOAA) developed an implementation plan for this program, and submitted it to Congress on May 31, 2001.

The Great Lakes Coastal Restoration Grants Implementation Program will direct approximately \$30 million for matching grants to be awarded competitively to state agencies and local governments to undertake coastal and water quality restoration projects in the Great Lakes region. Other entities such as regional organizations and nonprofit groups are not eligible to receive funds directly, but are eligible to receive pass through funding from state agencies or local governments. The eligible states are Illinois, Indiana, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin. These states will each receive a portion of the funds to support a competitive funding program. The funding levels are based on the Coastal Zone Management Act allocation formula, and are as follows: Illinois (\$1,750,000); Indiana (\$1,750,000); Michigan (\$7,000,000); Minnesota (\$1,938,000); New York (\$4,727,000); Ohio (\$4,489,000); Pennsylvania (\$1,846,000); Wisconsin (\$5,686,000). The statute requires matching grants but does not specify an amount. For this year, the match ratio is 4:1.

Each state will run a public competitive process to select eligible projects. At least fifty percent of a state's allocation should be directed to local government projects. The other specifics of the process, including timing and final project selection, are left up to

individual states. States are encouraged to utilize these funds to address restoration priorities identified in existing plans such as Coastal Management Plans and Remedial Action Plans. Proposals funded under this program should be consistent with a Great Lakes State's approved coastal management program under section 306 of the Coastal Zone Management Act (CZMA). Absent an approved program, projects must be consistent with the CZMA. Restoration projects eligible for funding include contaminated site cleanup, stormwater controls, wetland restoration, acquisition of greenways and buffers, and other projects designed to control polluted runoff and protect and restore coastal resources. States may use up to five percent of their allotments to cover the administrative expenses of implementing the program.

Copies of the Great Lakes Coastal Restoration Grants Implementation Plan can be found on the NOAA website at <http://www.ocrm.nos.noaa.gov/cpd> or may be obtained upon request from: Joseph Flanagan, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, 20910, tel. 301-713-3155, extension 201, e-mail joseph.flanagan@noaa.gov.

FOR FURTHER INFORMATION CONTACT: John King, Acting Chief, Coastal Programs Division (N/ORM3), Office of Ocean and Coastal Resource Management, NOS, NOAA, 1305 East-West Highway, Silver Spring, Maryland, tel. 301-713-3155 extension 195, e-mail john.king@noaa.gov.

BILLING CODE 3510-08-M

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 090401B]

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting of the Reef Fish Stock Assessment Panel (RFSAP).

DATES: This meeting will begin at 9 a.m. on Monday, September 24, and conclude by 12 noon on Friday, September 28, 2001.

ADDRESSES: The meeting will be held at NMFS Southeast Fisheries Science Center, 75 Virginia Beach Drive, Miami, FL.

FOR FURTHER INFORMATION CONTACT: Peter Hood, Fishery Biologist, Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The RFSAP will convene to review stock assessments on the status of the gag, vermilion snapper, and gray triggerfish stocks in the Gulf of Mexico. These stock assessments were prepared by NMFS and will be presented to the RFSAP. In the Report to Congress on the Status of Fisheries in the United States prepared by NMFS in January 2001, gag and vermilion snapper were listed as undergoing overfishing and gag was listed as approaching an overfished condition. The status of gray triggerfish was listed as unknown.

The RFSAP is composed of biologists who are trained in the specialized field of population dynamics. They advise the Council on the status of stocks and, when necessary, recommend a level of acceptable biological catch (ABC) needed to prevent overfishing or to effect a recovery of an overfished stock. They may also recommend catch restrictions needed to attain management goals.

Based on its review of the gag, vermilion snapper, and gray triggerfish stock assessments, the RFSAP may recommend a range of ABC for 2002, and may recommend management measures to achieve the ABC.

The conclusions of the RFSAP will be reviewed by the Council's Standing and Special Reef Fish Scientific and Statistical Committee (SSC), Socioeconomic Panel (SEP), and Reef Fish Advisory Panel (RFAP) at meetings to be held in October, 2001. Gag is a component of the shallow-water grouper complex (which consists of red grouper, gag, yellowfin grouper, black grouper, scamp, yellowmouth grouper, rock hind, and red hind). The Council may set year 2002 total allowable catches (TAC), as well as other management measures for the gag component of the shallow-water grouper complex and for

vermillion snapper and gray triggerfish at its meeting in Biloxi, MS on December 10-14, 2001.

Although other non-emergency issues not on the agendas may come before the RFSAP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the RFSAP will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305 (c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Anne Alford at the Council (see **ADDRESSES**) by September 17, 2001.

Dated: September 5, 2001.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[I.D. 090401A]

New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Monkfish Oversight Committee in September, 2001. Recommendations from the committee will be brought to the full Council for formal consideration and action, if appropriate.

DATES: The meeting will held on Monday, September 24, 2001, at 10 a.m.

ADDRESSES: The meeting will be held at the Radisson Airport Hotel Providence, 2081 Post Road, Warwick, RI 02886; telephone: (401) 739-3000.

Council address: New England Fishery Management Council, 50 Water Street, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New

England Fishery Management Council; (978) 465-0492.

SUPPLEMENTARY INFORMATION: The Monkfish Committee will discuss issues and options to be considered for the annual adjustment framework, including the effect of the timing of the upcoming stock assessment and the recent judicial decision on the framework development schedule. They will also hold preliminary discussions on recommendations to the Council for 2002 workload priorities, including a possible plan amendment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting dates.

Dated: September 5, 2001.

Richard W. Surdi,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
