

alternative was developed to reduce potential impacts to an ecologically important area for Pacific walrus and gray whales. Chukchi Sea Alternative 6 (Deepwater Deferral) is the Proposed Action excluding an area comprising approximately 1,020 whole or partial blocks in areas off the continental shelf. This alternative defers areas that are generally in waters deeper than 100 meters (328 feet).

Minerals Management Service

[Docket No. MMS-2008-MRM-0027]

Notice of Establishment of the Indian Oil Valuation Negotiated Rulemaking Committee

AGENCY: Minerals Management Service, Interior.

ACTION: Establishment of Advisory Committee.

SUMMARY: As required by section 9 (a) (2) of the Federal Advisory Committee Act (FACA) (5 U.S.C. Appendix 2), the Department of the Interior (Department) is giving notice of the establishment of the Indian Oil Valuation Negotiated Rulemaking Committee (Committee) to develop specific recommendations regarding Indian oil valuation. The Department has determined that the establishment of this Committee is in the public interest and will assist the Minerals Management Service (MMS) in performing its duties under the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) (30 U.S.C. 1701 *et seq.*). Copies of the Committee's charter will be filed with the appropriate committees of Congress and the Library of Congress in accordance with section 9 (c) of FACA.

SUPPLEMENTARY INFORMATION:

I. Background

On April 28, 2008, the Department published a notice of intent to establish an Indian Oil Valuation Negotiated Rulemaking Committee (73 FR 22970). In that notice, the Department requested interested parties to nominate representatives for membership on the Committee. The Department received 1 comment opposing the establishment of a negotiated rulemaking committee and 10 responses nominating individuals to serve on the Committee. The Department believes that using a negotiated rulemaking committee to make specific recommendations regarding valuation of oil from Indian leases would help the agency in developing a rulemaking. Therefore, the Department is establishing the Indian Oil Valuation Negotiated Rulemaking Committee.

II. Statutory Provisions

The Negotiated Rulemaking Act of 1996 (NRA) (5 U.S.C. 561 *et seq.*); the Federal Advisory Committee Act (5 U.S.C. Appendix 2, section 1 *et seq.*); the Federal Oil and Gas Royalty Management Act of 1982 (FOGRMA) (30 U.S.C. 1701 *et seq.*); the Indian Mineral Development Act of 1982 (25 U.S.C. 2101-2108; and 25 U.S.C. 2 and 9); 30 CFR part 206; 25 CFR part 225; and Indian oil and gas lease and agreement terms.

III. The Committee and Its Process

In a negotiated rulemaking, a proposed rule is developed by a committee composed of representatives of government and the interests that will be significantly affected by the rule. Decisions are made by "consensus."

"[C]onsensus" means unanimous concurrence among the interests represented on a negotiated rulemaking committee established under this subchapter, unless such committee (A) agrees to define such term to mean a general but not unanimous concurrence; or (B) agrees upon another specified definition.

5 U.S.C. 562(2) (A) and (B).

The negotiated rulemaking process is initiated by the Agency's identification of interests potentially affected by the rulemaking under consideration. Those interests were identified by the comments received regarding the **Federal Register** notice published on April 28, 2008.

IV. Membership of the Committee

The MMS believes that the interests significantly affected by this rule will be

represented by the representatives listed below:

A representative of the Shoshone and Arapaho Tribes of the Wind River Reservation;

A representative of the Ute Indian Tribe;

A representative of the allottees at Fort Berthold, North Dakota;

A representative of the allottees of Oklahoma Indian Land/Mineral Owners of Associated Nations;

A representative of the Blackfeet Nation;

A representative of the Council of Petroleum Accountants Societies (COPAS) Revenue Committee;

A representative of the Independent Petroleum Association of Mountain States;

A representative of Peak Energy Resources;

A representative of Resolute Natural Resources;

A representative of Chesapeake Energy;

Two representatives of the Minerals Management Service; and

A representative of the Assistant Secretary for Indian Affairs.

If anyone believes their interests will not be adequately represented by these organizations, they must demonstrate and document that assertion through an application submitted no later than 10 calendar days following publication of this notice. You may fax your documentation to (303) 231-3409.

The first meeting date will be published in a **Federal Register** notice. Future meetings will be determined at this first meeting and notice of the dates published in the **Federal Register**.

Certification

I hereby certify that the Indian Oil Valuation Negotiated Rulemaking Committee is in the public interest.

Dated: December 10, 2008.

Foster L. Wade,

Deputy Assistant Secretary for Land and Minerals Management.

National Park Service

Draft Legislative Environmental Impact Statement on the Harvest of Glaucous-Winged Gull Eggs by the Huna Tlingit in Glacier Bay National Park

AGENCY: National Park Service, Interior.

ACTION: Notice of Availability of the Draft Legislative Environmental Impact Statement on the Harvest of Glaucous-

Winged Gull Eggs by the Huna Tlingit in Glacier Bay National Park.

SUMMARY: The National Park Service announces the availability of a Draft Legislative Environmental Impact Statement (LEIS) for the Harvest of Glaucous-Winged Gull Eggs by the Huna Tlingit in Glacier Bay National Park. The document describes and analyzes the environmental impacts of a preferred alternative and one additional action alternative for managing a limited harvest of glaucous-winged gull eggs. A no action alternative is also evaluated. This notice announces the public comment period, the locations of public hearings, and solicits comments on the draft LEIS.

DATES: Comments on the draft LEIS must be received no later than March 6, 2009.

ADDRESSES: Written comments on the draft LEIS should be submitted to Mary Beth Moss, Project Manager, Glacier Bay National Park and Preserve, PO Box 140, Gustavus, AK 99829.

Submit comments electronically through the NPS Planning, Environment and Public comment system (PEPC) at <http://parkplanning.nps.gov>. The draft LEIS may be viewed and retrieved at this Web site as well. Hard copies of the draft LEIS are available by request from the aforementioned address. See **SUPPLEMENTARY INFORMATION** for the locations of public hearings.

FOR FURTHER INFORMATION CONTACT: Mary Beth Moss, Project Manager, Glacier Bay National Park and Preserve, Telephone: 907 317-1270.

SUPPLEMENTARY INFORMATION: The purpose of the draft LEIS is to analyze the effects of the limited collection of glaucous-winged gull eggs within Glacier Bay National Park by Hoonah Indian Association (HIA); the federally recognized government of the Huna Tlingit) tribal members if legislation authorizing collection were enacted. Glacier Bay is the traditional homeland of the Huna Tlingit. The Huna Tlingit harvested eggs at gull rookeries in Glacier Bay, including the large nesting site on South Marble Island, prior to the park being established in 1925. Egg collection was curtailed in the 1960s. The Migratory Bird Treaty Act prohibited the harvest of gull eggs, and by statute and NPS regulations, harvest is precluded within park boundaries.

In the late 1990s, at the behest of tribal leaders, the NPS agreed to explore ways to authorize this important cultural tradition. Section 4 of the Glacier Bay National Park Resource Management Act of 2000 (Pub. L. 106-455) requires the Secretary of Interior, in
