The final EIS is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Additional information about the Project is available from the Commission's Office of External Affairs, at (866) 208-FERC, or on the FERC website (www.ferc.gov) using the eLibrary link. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription that allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. Go to https://www.ferc.gov/ferc-online/overview to register for eSubscription.

Administration of Cross-State Air Pollution Rule Trading Program Assurance Provisions for 2021 Control Periods

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of data availability.

SUMMARY: The Environmental Protection Agency (EPA) is providing notice of the

availability of data on the administration of the assurance provisions of the Cross-State Air Pollution Rule (CSAPR) trading programs for the control periods in 2021. Total emissions of nitrogen oxides (NO_x) reported by Missouri units participating in the CSAPR NO_X Ozone Season Group 2 Trading Program during the 2021 control period exceeded the state's assurance level under the program. Data demonstrating the exceedance and EPA's final calculations of the amounts of additional allowances that the owners and operators of certain Missouri units must surrender have been posted in a spreadsheet on EPA's website.

DATES: September 21, 2022.

FOR FURTHER INFORMATION CONTACT:

Questions concerning this action should be addressed to Garrett Powers at (202) 564–2300 or powers.jamesg@epa.gov.

SUPPLEMENTARY INFORMATION: The regulations for each CSAPR trading program contain "assurance provisions" designed to ensure that the emissions reductions required from each state covered by the program occur within the state. If the total emissions from a given state's affected units exceed the state's assurance level under the program, then two allowances must be surrendered for each ton of emissions exceeding the assurance level (in addition to the ordinary obligation to surrender one allowance for each ton of emissions). In the quarterly emissions reports covering the 2021 control period, Missouri units participating in the CSAPR NO_X Ozone Season Group 2 Trading Program reported emissions that exceed the state's assurance level under the program by 1,295 tons, resulting in a requirement for the surrender of 2,590 additional allowances.

When a state's assurance level is exceeded, responsibility for surrendering the required additional allowances is apportioned among groups of units in the state represented by "common designated representatives" based on the extent to which each such group's emissions exceeded the group's share of the state's assurance level. For the CSAPR NO_X Ozone Season Group 2 Trading Program, the procedures are set forth at 40 CFR 97.802 (definitions of "common designated representative," "common designated representative's assurance level," and "common designated representative's share"), 97.806(c)(2), and 97.825.

On July 15, 2022, EPA published a document in the **Federal Register** providing notice of the data relied on to determine the amount of the exceedance of the Missouri assurance level and the preliminary calculations of the amounts of additional allowances that the owners and operators of certain Missouri units must surrender as a result of the exceedance and describing the process for submitting any objections (87 FR 42459). EPA received no written submissions objecting to the data and preliminary calculations.

In this document, EPA is providing notice of the final calculations of the amounts of additional allowances that must be surrendered. Responsibility for surrendering 2,590 additional allowances for the Missouri exceedance has been apportioned almost entirely to the group of units operated by Associated Electric Cooperative, Inc. (2,570 allowances), with much smaller shares apportioned to the groups of units operated by the municipal utilities of Chillicothe and Higginsville (4 and 16 allowances, respectively). Each set of owners and operators identified pursuant to this notice of the final calculations must hold the required additional allowances in an assurance account by November 1, 2022.

The data and final calculations are set forth in an Excel spreadsheet entitled "2021_CSAPR_assurance_provision_ calculations_final.xlsx" available at http://www.epa.gov/csapr/csaprassurance-provision-nodas. The spreadsheet contains data for the 2021 control period showing, for each Missouri unit identified as affected under the CSAPR NO_X Ozone Season Group 2 Trading Program, the amount of NO_x emissions reported by the unit and the amount of CSAPR NOX Ozone Season Group 2 allowances allocated to the unit, including any allowances allocated from a new unit set-aside. The spreadsheet also contains calculations for the 2021 control period showing the total NO_X emissions reported by all such units in the state and the amount by which the total reported NO_X emissions exceeded the state's assurance level under the program. Finally, the spreadsheet also includes calculations for the 2021 control period showing, for each common designated representative for a group of such units in the state, the common designated representative's share of the total reported NO_X emissions, the common designated representative's share of the state's assurance level, and the amount of additional CSAPR NO_X Ozone Season Group 2 allowances that the owners and operators of the units in the group must surrender.

Pesticide Product Registration; Receipt of Applications for New Uses (August 2022)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

DATES: Comments must be received on or before October 21, 2022.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA—HQ—OPP—2022—0163, through the Federal eRulemaking Portal at https://www.regulations.gov. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting and visiting the docket, along with more information about dockets generally, is available at https://www.epa.gov/dockets.

The mailing address for each contact person: Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001. As part of the mailing address, include the contact person's name, division, and mail code. The division to contact is listed at the end of each application summary.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- B. What should I consider as I prepare my comments for EPA?
- 1. Submitting CBI. Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.
- 2. Tips for preparing your comments. When preparing and submitting your comments, see the commenting tips at https://www.epa.gov/dockets/commenting-epa-dockets.

II. Registration Applications

EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications.
