POSTAL SERVICE

39 CFR Part 111

New Marking Requirement for Bound Printed Matter Machinable Parcels

AGENCY: Postal Service.

ACTION: Proposed rule.

SUMMARY: The Postal Service proposes a new marking requirement for Bound Printed Matter machinable parcels consisting of multiple pieces secured with transparent shrinkwrap. Under our proposal, mailers must use a firm optional endorsement line or apply a pressure-sensitive firm bundle Label F. The new marking will enable our automated equipment to recognize that a Bound Printed Matter parcel is intended for a single address.

DATES: We must receive your comments on or before January 26, 2006. We propose to implement these changes on May 11, 2006.

ADDRESSES: Mail or deliver written comments to the Manager, Mailing Standards, U.S. Postal Service, 475 L'Enfant Plaza, SW., Room 3436, Washington DC 20260-3436. You may inspect and photocopy all written comments at USPS Headquarters Library, 475 L'Enfant Plaza, SW., 11th Floor N, Washington DC between 9 a.m. and 4 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Joel Walker, 202-268-7266.

SUPPLEMENTARY INFORMATION: Our new Automated Package Processing System (APPS) simultaneously sorts parcels and bundles of mail. When APPS sees a Bound Printed Matter (BPM) machinable parcel that consists of multiple pieces, such as catalogs, shrinkwrapped together and destined for a single address, APPS is programmed to identify the parcel as a presort destination bundle. When APPS fails to find an optional endorsement line (OEL) or bundle label it diverts the parcel to a reject bin.

Our proposal would require mailers to place either a firm OEL or a firm bundle Label F on BPM machinable parcels that APPS otherwise might mistake as bundles. If using a firm OEL, mailers must place it and the 5-digit destination ZIP Code of the BPM parcel in the address block in the same location designated for all OELs.

The firm OEL or bundle Label F will indicate to APPS that the parcel is destined for a single address, allowing APPS to properly sort the parcel. This new marking requirement is for BPM machinable parcels only.

In addition to our proposal for the firm OEL or bundle Label F, mailers

must make the delivery address information and the bundle Label F or OEL visible and readable by the naked eye. We published these readability standards in the **Federal Register** on October 20, 2005 (70 FR 61037).

We provide the new standards below. We propose to implement these changes on May 11, 2006.

Although we are exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 410 (a)), we invite comments on the following proposed revisions to Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM), incorporated by reference in the Code of Federal Regulations. See 39 CFR Part 111.

Approval and Promulgation of Implementation Plans; Tennessee; Nitrogen Oxides Budget and Allowance Trading Program, Phase II

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA is proposing to approve State Implementation Plan (SIP) revisions submitted by the State of Tennessee on May 6, 2005. The revision responds to the EPA's regulation entitled, "Interstate Ozone Transport: Response to Court Decisions on the NO_x SIP Call, NO_x SIP Call Technical Amendments, and Section 126 Rules," otherwise known as the "NO_x SIP Call Phase II." This revision satisfies EPA's rule that requires Tennessee to submit NO_x SIP Call Phase II revisions needed to achieve the necessary incremental reductions of nitrogen oxides (NO_x). The intended effect of this SIP revision is to reduce emissions of NO_x in order

to help attain the national ambient air quality standard (NAAQS) for ozone. Specifically, this revision addresses compliance plans for NO_x emissions from stationary internal combustion engines.

In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a non-controversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: Written comments must be received on or before January 26, 2006.

ADDRESSES: Comments may be submitted by mail to: James Hou, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303-8960.

Comments may also be submitted electronically, or through hand delivery/courier. Please follow the detailed instructions described in the direct final rule. **ADDRESSES** section which is published in the Rules Section of this **Federal Register**.

SUPPLEMENTARY INFORMATION:

Background

Authorized by 42 U.S.C. 701(a)(3), the HTPC is a grant program funded and administered by the Health Resources and Services Administration's (HRSA) Maternal and Child Health Bureau (MCHB). Its purpose is to stimulate innovative community-based programs that employ prevention strategies to promote access to health care for children and their families nationwide by providing grant funds to implement a new or enhance an existing child health initiative. Currently, there are 58 HTPC funded projects. In fiscal year (FY) 2005 48 projects are continuing grantees and 10 are newly funded.

Since the inception of this grant program in 1989, the HTPC has issued a programmatic requirement in its guidance that grant applicants must demonstrate the capability to meet cost participation goals by securing non-Federal matching funds and/or in-kind resources for the second through fifth years of the project. One of the key goals of this initiative is that funded programs are to be sustainable beyond the 5-year
