Certain Cased Pencils From the People's Republic of China: Amended Final Results of Antidumping Duty New Shipper Review; 2014–2015

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Department) is amending the final results of the new shipper review (NSR) of the antidumping duty order on certain cased pencils from the People's Republic of China (PRC) to correct ministerial errors. The Department has reviewed Wah Yuen's allegation and determined that there were errors in the calculation of Wah Yuen's weighted-average dumping margin.

DATES: Effective December 20, 2016.

FOR FURTHER INFORMATION CONTACT: Mary Kolberg, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration,

U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–1785.

SUPPLEMENTARY INFORMATION:

Background

On October 27, 2016, the Department published the final results of the NSR of the antidumping duty order on certain cased pencils from the PRC. The review covers Wah Yuen Stationery Co., Ltd. and its affiliate, Shandong Wah Yuen Stationery Co., Ltd. (collectively, Wah Yuen) for the period of review (POR) December 1, 2014, through May 31, 2015.

On October 28, 2016, Wah Yuen filed an allegation that the Department's calculation of the margin for Wah Yuen contained ministerial errors. In its ministerial error comments, Wah Yuen alleged that the Department erred in its calculation of the extended values for alkyd resin and acrylic resin. Wah Yuen argued that the Department calculated the freight component of the two input values incorrectly because it omitted the factors of production variable in both calculations. The Department reviewed the allegation and revised the calculation of the two inputs by multiplying the freight component for each input by the respective factor of production variable.¹

Amended Final Results

The corrected weighted-average dumping margin for Wah Yuen is as follows:
