Approval and Promulgation of Air Quality Implementation Plans; Ohio; PBR and PTIO

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve six Permit-by-Rule provisions, a Permit to Install and Operate program, two permanent exemptions from the Permit to Install requirement and a general permit program as additions to Ohio's State Implementation Plan under the Clean Air Act. The Ohio Environmental Protection Agency has requested these rule revisions to make its air pollution permit program more efficient. Approving these additions will make the Permits by Rule, Permits to Install and Operate and general permits federally enforceable. Because these rule revisions will make Ohio's air permit program more efficient while continuing to protect human health and the environment, EPA is taking direct final action to approve the revisions.

DATES: Comments must be received on or before October 31, 2012.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

SUPPLEMENTARY INFORMATION: In the "Rules and Regulations" section of this **Federal Register**, the EPA is codifying and incorporating by reference the State's hazardous waste program as a direct final rule. The EPA believes this action is not controversial and does not expect comments to oppose the codification. We have explained the reasons for this codification and incorporation by reference in the preamble to the direct final rule. Unless we get written comments which oppose this incorporation by reference during the comment period, the direct final rule will become effective on the effective date described in the direct final rule and we will not take further action on this proposal. If the EPA receives comments that oppose the codification, the EPA will withdraw the direct final rule and it will not take effect. EPA will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. For additional information, please see the direct final rule published in the "Rules and Regulations" section of this **Federal Register**.
