Needs and Uses: One of the functions of the Universal Service Administrative Company (USAC) is to provide a means for the billing, collection and disbursement of funds for the universal service support mechanisms. On October 1998, the OMB approved FCC Form 498, the “Service Provider Information Form” to enable USAC to collect service provider name and address, telephone number, Federal Employer Identification Number (EIN), contact names, contact telephone numbers, and remittance information. FCC Form 498 enables participants to request a Service Provider Identification Number (SPIN) and provides the official record for participation in the universal service support mechanisms. Specifically, the *E-rate Modernization Order* revised the Commission rules to allow an applicant that pays the full cost of the Schools and Libraries (E-rate) supported services to a service provider to receive direct reimbursement from USAC.

The Digital Accountability and Transparency Act (DATA Act) directs Federal agencies to report financial

obligations and standardize the information that recipients of federal funds report to government agencies. To comply with the DATA Act, the DATA Act Business Type is reported on FCC Form 498. When completing or updating this form, service providers and billed entities are required to select up to three business types that best describes the organization.

The Commission’s Public Notice released April 6, 2022 announced the transition from using the Data Universal Numbering System Number (DUNS) to a Unique Entity Identifier (UEI) for *SAM.GOV*.
