SUPPLEMENTARY INFORMATION: Section 208 of the Energy Reorganization Act of 1974, as amended (Pub. L. 93-438), defines an "abnormal occurrence" as an unscheduled incident or event that the NRC determines to be significant from the standpoint of public health or safety. The FY 2020 AO report, NUREG-0090, Volume 43, "Report to Congress on Abnormal Occurrences: Fiscal Year 2020" (ADAMS Accession No. ML21152A287), describes those events that the NRC identified as AOs during FY 2020.

This report describes seven events in Agreement States and two events involving NRC licensees that were identified as AOs during FY2020. Eight AOs were medical events as defined in part 35 of title 10 of the *Code of Federal Regulations*, "Medical Use of Byproduct Material." There was one AO that was a human exposure event. The NRC did not identify any events at commercial nuclear power plants as AOs.

The NRC identified four events during FY 2020 that met the guidelines for inclusion in Appendix B, "Other Events of Interest." The first of these events was a human exposure event with possible internal contamination. The second event involved a gauge failure that resulted in unintended exposure to seven individuals, three of whom were classified as radiation workers who received occupational radiation exposure below regulatory limits. The third event was a stuck source event that resulted in an exposure above the regulatory annual limit to an individual involved in recovering the source. The fourth event concerned an extended loss of offsite power event at a commercial nuclear power plant. No events met the guidelines for inclusion in Appendix C, "Updates of Previously Reported Abnormal Occurrences."

Agreement States are the 39 U.S. States that currently have entered into formal agreements with the NRC pursuant to Section 274 of the Atomic Energy Act of 1954, as amended (AEA), to regulate certain quantities of AEA-licensed material at facilities located within their borders.

The Federal Reports Elimination and Sunset Act of 1995 (Pub. L. 104-68) requires that AOs be reported to Congress annually. The full report,

NUREG-0090, Volume 43, "Report to Congress on Abnormal Occurrences: Fiscal Year 2020," is also available electronically at the NRC's website at <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/>.

Dated: June 3, 2021.
