BILLING CODE 7533-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2008-0564]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U.S. Nuclear Regulatory Commission (NRC).

ACTION: Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

SUMMARY: The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* Requests to Non-Agreement States For Information.
2. *Current OMB approval number:* 3150-0200.
3. *How often the collection is required:* 8 times per year.
4. *Who is required or asked to report:* The 17 Non-Agreement States (those States and 2 territories that have not signed 274(b) Agreements with NRC).
5. *The number of annual respondents:* 136.
6. *The number of hours needed annually to complete the requirement or request:* 1122.

7. *Abstract:* Requests may be made of States that are similar to those of Agreement States to provide a more complete overview of the national program for regulating radioactive materials. This information would be used in the decisionmaking of the Commission. With Agreement States and as part of the NRC cooperative post-agreement program with the States pursuant to Section 274(b), information on licensing and inspection practices, and/or incidents, and other technical

and statistical information are exchanged. Agreement State comments are also solicited in the areas of proposed implementing procedures relative to NRC Agreement State program policies. With the enactment of the Energy Policy Act of 2005, specifically Section 651(e), NRC now has regulatory authority over use of accelerator-produced radioactive materials and discrete sources of radium-226 and other naturally occurring radioactive material as specified by the Commission. Therefore, information requests sought may take the form of surveys, e.g., telephonic and electronic surveys/polls and facsimiles.

Submit, by April 13, 2009, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide Web site: <http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice. Comments submitted in writing or in electronic form will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. Comments submitted should reference Docket No. NRC-2008-0564. You may submit your comments by any of the following methods.
