## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Project No. 15404–000]

#### **Claiborne Hydroelectric, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications**

On May 30, 2025, Claiborne Hydroelectric, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) Claiborne Lock and Dam, on Alabama River, near City of Franklin, Monroe County, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Claiborne lock and dam Hydroelectric Project would consist of the following: (1) a 98-foot-wide, 50-foot-long armored intake structure; (2) a 98-foot-wide, 187-foot-long reinforced concrete powerhouse, located downstream of the western abutment of the Corps' dam, hosting two identical 9.95 MW turbine generators;

(3) a 100-foot-long, 98-foot-wide armored tailrace that would direct flow to the river downstream of the dam; and (4) a 4.5 mile-long, 230 kilovolt transmission line. The proposed project would have an estimated annual generation of 139.5 gigawatt-hours.

### **Cancellation Order for Certain Pesticide Registrations and/or Amendments To Terminate Uses**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's order for the cancellations and/or amendments to terminate uses, voluntarily requested by the registrants and accepted by the Agency, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows a December 17, 2024, **Federal Register** Notice of Receipt of Requests from the registrants listed in Table 3 of Unit II to voluntarily cancel and/or amend to terminate uses of all these product registrations. In the December 17, 2024, notice, EPA indicated that it would issue an order implementing the cancellations and/or amendments to terminate uses, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency received one anonymous comment on the notice, but it did not merit its further review of the requests. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations and/or amendments to terminate uses. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

**DATES:** The cancellations and/or amendments are effective July 2, 2025.

### III. Summary of Public Comments Received and Agency Response to Comments

The Agency received one anonymous comment supporting the cancellation of products containing Glutaraldehyde. For these reasons, the Agency does not believe that the comments submitted during the comment period merit further review or a denial of the requests for voluntary cancellation and/or use termination.

### IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)(1)), EPA hereby approves the requested cancellations and/or amendments to terminate uses of pesticide registrations identified in Tables 1 and 2 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Tables 1 and 2 of Unit II, are canceled and/or amended to terminate the affected uses. The effective date of the cancellations that are subject of this notice is July 2, 2025. Any distribution, sale, or use of existing stocks of the products identified in Tables 1 and 2 of Unit II, in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI, will be a violation of FIFRA.

### V. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of December 17,

2024, (89 FR 102138 (FRL–12320–01–OCSP)). The comment period closed on January 16, 2025.

### VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the action. The existing stocks provision for the products subject to this order is as follows.

For voluntary cancellations, the registrants may continue to sell and distribute existing stocks of products listed in Table 1 until July 2, 2026, which is 1 year after publication of this cancellation order in the **Federal Register**. Thereafter, the registrants are prohibited from selling or distributing products listed in Table 1 of Unit II, except for export in accordance with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal.

Now that EPA has approved product labels reflecting the requested amendments to terminate uses, registrants are permitted to sell or distribute products listed in Table 2 of Unit II, under the previously approved labeling until December 30, 2026, a period of 18 months after publication of the cancellation order in the **Federal Register**, unless other restrictions have been imposed. Thereafter, registrants will be prohibited from selling or distributing the products whose labels include the terminated uses identified in Table 2 of Unit II, except for export consistent with FIFRA section 17 or for proper disposal.

Persons other than the registrant may sell, distribute, or use existing stocks of canceled products and/or products whose labels include the terminated uses until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that

accompanied, the canceled products and/or terminated uses.
