

The information collected is used to administer licensing provisions under the PACA, to adjudicate contract disputes, and for the purpose of enforcing the PACA and the regulations. The purpose of this notice is to solicit comments from the public concerning our information collection.

We estimate the paperwork and time burden on the above to be as follows:

Form FV-211 (or 211-1, or 211-2, or 211-3, or 211-4, or 211-5), Application for License: average of .25 hours per application per response.

Form FV-231-1 (or 231-1A, or 231-2, or 231-2A), Application for Renewal or Reinstatement of License: Average of .05 hours per application per response.

Regulations Section 46.13—Letters to Notify USDA of Changes in Business Operations: Average of .05 hours per notice per response.

Regulations Section 46.4—Limited Liability Company Articles of Organization and Operating Agreement: Average of .083 hours with approximately 220 recordkeepers.

Regulations Section 46.18—Record of Produce Received: Average of 5 hours with approximately 18,400 recordkeepers.

Regulations Section 46.20—Records Reflecting Lot Numbers: Average of 8.25 hours with approximately 1,000 recordkeepers.

Regulations Section 46.46(d)(2)—Waiver of Rights to Trust Protection: Average of .25 hours per notice with approximately 100 principals.

Regulations Sections 46.46(f) and 46.2(aa)(11)—Copy of Written Agreement Reflecting Times for Payment: Average of 20 hours with approximately 2,670 recordkeepers.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3.8203 hours per response.

Respondents: Commission merchants, dealers (including restaurants), and brokers engaged in the business of buying, selling, or negotiating the purchase or sale of commercial quantities of fresh and/or frozen fruits and vegetables in interstate or foreign commerce are required to be licensed under the PACA (7 U.S.C. 499(c)(a)).

Estimated Number of Respondents: 15,829.

Estimated Number of Responses per Respondent: 2.5654.

Estimated Total Annual Burden on Respondents: 155,138.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the

agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to James R. Frazier, Chief, PACA Branch, Fruit and Vegetable Programs, USDA, Room 2095—So. Bldg., P.O. Box 96456, Washington, DC 20090-6456. Email—jim.frazier@usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: March 5, 2001.

Kenneth C. Clayton,

Acting Administrator, Agricultural Marketing Service.

Notice of Request for Extension and Revision of a Currently Approved Information Collection

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), this notice announces the Agricultural Marketing Service's (AMS) intention to request an extension for and revision to a currently approved information collection for report forms under the Federal milk marketing order program.

DATES: Comments on this notice must be received by May 8, 2001 to be assured of consideration.

ADDITIONAL INFORMATION OR COMMENTS: Contact William F. Newell, Chief, Order Operations Branch, Dairy Programs, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2753-S, P.O. Box 96456, Washington, DC 20090-6456, (202) 690-2375, e-mail address: William.Newell@usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Report Forms Under Federal Milk Orders (From Milk Handlers and Milk Marketing Cooperatives).

OMB Number: 0581-0032.

Expiration Date of Approval: September 30, 2001.

Type of Request: Extension and revision of a currently approved information collection.

Abstract: Federal milk marketing order regulations authorized under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), require milk handlers to report in detail the receipts and utilization of milk and milk products handled at each of their plants that are regulated by a Federal order. The data are needed to administer the classified pricing system and related requirements of each Federal order.

Formal rulemaking amendments to the orders must be approved in referenda conducted by the Secretary.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1.07 hours per response.

Respondents: Milk handlers and milk marketing cooperatives.

Estimated Number of Respondents: 692.

Estimated Number of Responses per Respondent: 29.

Estimated Total Annual Burden on Respondents: 21,397 hours.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to William F. Newell, Chief, Order Operations Branch, USDA-AMS, Room 2753-S, PO Box 96456, Washington, DC 20090-6456, (202) 690-2375, e-mail address: William.Newell@usda.gov. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: March 5, 2001.

Kenneth C. Clayton,

Acting Administrator, Agricultural Marketing Service.

BILLING CODE 3410-02-P

DEPARTMENT OF AGRICULTURE

Forest Service

Kachina Village EIS; Southwestern Region, Arizona, Coconino County, Coconino National Forest

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare an Environmental Impact Statement.

SUMMARY: The Coconino National Forest is planning to prepare an Environmental Impact Statement on a proposal to improve the resiliency of the forest ecosystem by reducing the threat of catastrophic fire, and overall improving forest health. This project will be planned in cooperation with the Grand Canyon Forests Partnership and all interested publics.

DATES: Comments in response to this Notice of Intent concerning the scope of the analysis should be received in writing on or before April 9, 2001.

ADDRESSES: Send written comments to USDA Forest Service, Coconino National Forest, Flagstaff, AZ 86004. Electronic mail may be sent to tkrandall@fs.fed.us

Responsible Official: The Forest Supervisor of the Coconino National Forest, Supervisor's Office 2323 E. Greenlaw Lane, Flagstaff, AZ 86004, will decide what actions are most appropriate for the Kachina Village Project Area.

FOR FURTHER INFORMATION CONTACT: Tammy Randall-Parker, Peaks Ranger District, 5075 North Highway 89, Flagstaff, AZ 86004. (520) 527-8254 or tkrandall@fs.fed.us

SUPPLEMENTARY INFORMATION: The proposal will focus on improving forest health and improving forest resiliency. The project will include the following:

1. Removal of ponderosa pine trees to reduce hazardous fuel loads in the Flagstaff Urban Interface. Simultaneously this action will improve forest health by thinning dense stands of trees, which will improve tree growth, improve the herbaceous understory, protect cultural resources from wildfire, improve and protect wildlife habitat, and watershed functions. Thinning of ponderosa pine will include thinning of smaller diameter ponderosa pine. We estimate ninety-percent of the tree thinned will be small than 12" dbh.

Large old trees, mature ponderosa pine and Douglas-fir will not be removed from the area. These trees are important to wildlife, aesthetic values, and the overall health of the ecosystem. The mature trees are very important and the thinning conducted will help to improve the longevity of these old trees by reducing competition and will also help to protect them in the event of a wildfire event.

2. Prescribed burning and removal of slash created by thinning will be conducted. Prescribed burning will be used to reduce fuel loads and will simultaneously benefit forest health by stimulating understory vegetation. Wildlife, soils, and watershed function will benefit from prescribed fire. Slash created by thinning will be managed and mitigated so that only short-term impacts will occur from thinning slash.

3. Roads will be needed to access areas during thinning. Many roads exist in this area currently and there will be reconstruction needs due to the poor condition of some roads. Very few new roads are anticipated, other than development of temporary roads. A road management plan will focus on the desired future condition that will best manage for wildfire access, recreation access, water quality improvement, and wildlife protection.

4. Recreation management including dispersed camping, trails, recreational opportunities and developments will be woven into our efforts to reduce fire risk (human caused fires), improve forest health, improve watershed and soil function, and improve wildlife habitat, and most importantly better serve the needs of our publics. Caring for the land and serving the people must be balanced and will be integrated into a proposal to improve forest health and resiliency.

Alternatives for this project will be based on public comment to this notice and scoping which will occur during March and April of 2001. A scoping document to include a more detailed proposed action is expected to be available to the public in April. We encourage all interested parties to provide input and suggestions during the month of March. Meetings will be held at the Peaks Ranger District Office on March 1, 15, 22, and 23 to provide comment into the development of a proposed action.

The month of April will include a 30-day comment period on a proposed action for the project area. Based on public comment and issues that come forth from scoping, alternatives will be developed by the USFS Interdisciplinary team assigned to this project. A draft EIS will be developed

and available for public comment July or August 2001. A final EIS would be anticipated in September/October of 2001.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. To be the most helpful, comments on the draft environmental impact statement should be as specific as possible and may address the adequacy of the statement or the merits of the alternatives discussed (see Council of Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3).

In addition, Federal court decisions have established that reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewers' positions and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC* 435 US 519, 553 (1978). Environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the final environmental impact statement. *City of Angoon v. Hodel* 9th Circuit, 1986) and *Wisconsin Heritages, Inc v. Harris*, 490 F.Supp. 1334, 1338 (E.D. Wis. 1980). The reason for this is to ensure that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Dated: February 28, 2001.

Karyl Georgio,

Acting Forest Supervisor.
