Summary of Collection: The United States Mining Law of 1982, as amended, governs the prospecting for and appropriation of metallic and most nonmetallic minerals on 192 millions acres of National Forest set up by

A mining claimant is entitled to reasonable access to claim for further prospecting, mining or necessary related activities, subject to the other laws and applicable regulations. The purpose of the regulations at 36 CFR part 228, subpart A, is to set some specific rules and procedures through which use of the surface of National Forest System lands in connection with mineral operations authorized by the United States mining laws shall be conducted so as to minimize adverse environmental impacts on surface resources. The information requirements for a cessation of operation include: verification to maintain the structures, equipment and other facilities; expected reopening date; estimate of extended duration of operations; and maintenance of the site, structure, equipment and other facilities during nonoperating periods.
