

**Record of Service***I. Background*

In his State of the Union address, President Bush called on all Americans to perform some form of service to the nation for the equivalent of two years of his or her life. Americans serve their country in extraordinary and countless ways. Most of our Nation's civic work is being done without the aid of the Federal Government, but we believe the Federal Government can work to enhance the opportunities for Americans to serve their neighbors and their Nation. The Administration proposes to create and expand activities that will enhance homeland security, provide additional community-based service and volunteer opportunities, and assist people around the world. In January, the President announced the creation of the USA Freedom Corps which will have three major components: a newly created Citizen Corps to engage citizens in homeland security; an improved and enhanced AmeriCorps and Senior Corps, programs of the Corporation for National and Community Service (Corporation); and a strengthened Peace Corps.

In support of the President's call to service, the Corporation has created an electronic record of service that provides citizens who accept his challenge a way to track their service time and record their service hours. Use of this tracking tool is 100 percent electronic in that users will establish a user ID and password that automatically creates a "record of service" account which is only accessible to that particular user. This record of service account can be updated only by the user who established the account. In addition, those users who create a record of service account can, by

checking various blocks, elect to receive information about USA Freedom Corps and other national and community service volunteer activities.

*II. Current Action*

Because of President Bush's announcement on March 12, 2002, which informed the public of the availability of this record of service, the Corporation, on March 6, 2002, submitted a request for emergency processing and approval by OMB of this record of service because it could not reasonably comply with the normal clearance procedures under the Paperwork Reduction Act. OMB approved this request on March 12, 2002, for a period of six months to expire on September 30, 2002, and assigned Control Number 3045-0077 to this information collection activity. The link to this record of service, which is now available for use, and which serves as a means for the public to record their record of service may be found on the following Internet address: <http://www.usafreedomcorps.gov>.

## POLICY JUSTIFICATION

### Spain - AIM-120C Advanced Medium Range Air-to-Air Missiles

The Government of Spain has requested a possible sale of 31 AIM-120C Advanced Medium Range Air-to-Air Missiles (AMRAAM), eight Captive Air Training Missiles, software updates to support AMRAAM operational and training devices, missile containers, aircraft modification and integration, spare and repair parts, support and test equipment, publications and technical documentation, maintenance and pilot training, contractor support, other related elements of logistical and program support. The estimated cost is \$19 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Spain while enhancing weapon system standardization and interoperability with U.S. forces.

Spain needs these additional missiles to enhance the air-to-air self-defense capability of their F-18 aircraft and provide for increased interoperability with U.S. forces. Spain will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems of Tucson, Arizona. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Spain.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
