

Primary: Individuals or households.
Other: None.

Abstract: The ATF Citizens Academy Application—ATF form 300.12 will be used to collect personally identifiable information to determine an individual’s eligibility to participate in the Citizens Academy training program.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimated 750 respondents will prepare responses for this collection once annually, and it will take each respondent approximately 5 minutes to complete their responses.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The estimated annual public burden associated with this collection is 63 hours, which is equal to 750 (total respondents) * 1 (# of response per respondent) * .0833333 (5 minutes or the time taken to prepare each response).

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, Mail Stop 3.E–405A, Washington, DC 20530.

Dated: April 12, 2022

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.

BILLING CODE 4410–FY–P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Judgment Under the Comprehensive Environmental Response, Compensation, and Liability Act

On April 12, 2022, the Department of Justice lodged a proposed Consent Judgment with the United States District Court for the Eastern District of New York in a lawsuit entitled *United States v. Northrop Grumman Systems Corporation et al.*, Civil Action No. 22–cv–02101.

In this action, the United States seeks, as provided under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), recovery of response costs from Northrop Grumman Systems Corporation and Northrop Grumman Corporation (collectively “Grumman”) related to its historical operations at the Naval Weapons Industrial Reserve Plant, Bethpage, New York, and adjacent former facilities owned and

operated by Grumman’s predecessors (“the Sites”). The proposed Consent Judgment resolves the United States’ claims against Grumman for the United States’ response costs, and related contribution claims, at the Sites.

Under the proposed Consent Judgment, the United States will receive \$35,000,000 from Grumman. Of the settlement proceeds, \$17,500,000 will go to the Department of the Navy’s Environmental Restoration account, and \$17,500,000 will go to the United States Treasury.

The settlement (Section IX) provides, in exchange for the above payments, the United States releases and covenants not to sue or to take administrative action against Grumman with respect to claims arising from or relating to the Sites or the related groundwater contamination, including claims for response costs and contribution under CERCLA or other laws. Further, under Section XI, Grumman releases, and covenants not to sue the United States with respect to claims arising from or relating to the Sites or related groundwater contamination, including claims for response costs and contribution under CERCLA or other laws. The Consent Judgment more fully describes these covenants, and Section X identifies certain exceptions to each of the above-referenced covenants.

Under the Consent Judgment, the parties will each continue with their respective response actions and commitments to take response actions to address the Sites, as described in Section VII of the Consent Judgment. Further, the Parties will coordinate and cooperate with each other in implementing their respective response actions to address the Sites, as described in Section VII.

The publication of this notice opens a period for public comment on the proposed Consent Judgment. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Northrop Grumman Systems Corp. et al.*, Civil Action No. 22–cv–02101, D.J. Ref. No. 90–11–3–10336. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

<i>To submit comments:</i>	<i>Send them to:</i>
By email	<i>pubcomment-ees.enrd@usdoj.gov.</i>

<i>To submit comments:</i>	<i>Send them to:</i>
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

During the public comment period, the Consent Judgment may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>. A paper copy of the Consent Judgment will be provided upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

Please enclose a check or money order for \$4.00 (25 cents per page reproduction cost) payable to the United States Treasury.

Henry Friedman,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410–15–P

DEPARTMENT OF JUSTICE

[OMB Number 1121–NEW]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Reinstatement, With Change, of Previously Approved Collection: National Inmate Survey in Jails (NIS–4J)

AGENCY: Bureau of Justice Statistics, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Office of Justice Programs, Bureau of Justice Statistics, will be submitting the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995.

DATES: Comments are encouraged and will be accepted for 60 days until June 17, 2022.

FOR FURTHER INFORMATION CONTACT: If you have additional comments especially on the estimated public burden or associated response time, suggestions, or need a copy of the proposed information collection instrument with instructions or additional information, please contact Amy Lauger, Supervisory Statistician, Institutional Research and Special Projects Unit, Bureau of Justice

Statistics, 810 Seventh Street NW, Washington, DC 20531 (email: Amy.Lauger@usdoj.gov; telephone: 202–307–0711).

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Bureau of Justice Statistics, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether, and if so how, the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* Reinstatement, with change, of a previously approved collection. A new OMB number is needed, as this collection was previously under 1121–0311 with the collection of prison data. They are now two separate collections.

2. *The Title of the Form/Collection:* National Inmate Survey in Jails (NIS–4).

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* There is no agency form number at this time. The applicable component within the Department of Justice is the Bureau of Justice Statistics, in the Office of Justice Programs.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:* Respondents will primarily be State or Local Government entities. The work under this clearance will be used to produce estimates for the incidence and prevalence of sexual victimization within correctional facilities as required under the Prison Rape Elimination Act of 2003 (Pub. L. 108–79). The Bureau of

Justice Statistics uses this information in published reports and for the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, and others interested in criminal justice statistics.

In 2003, the Prison Rape Elimination Act (PREA or the Act) was signed into law. The Act requires BJS to “carry out, for each calendar year, a comprehensive statistical review and analysis of the incidence and effects of prison rape.” The Act further instructs BJS to collect survey data: “. . . the Bureau shall . . . use surveys and other statistical studies of current and former inmates . . .”

To implement the Act, BJS developed the National Prison Rape Statistics Program (NPRS), which includes four separate data collection efforts: The Survey on Sexual Violence (SSV), the National Inmate Survey (NIS), the National Survey of Youth in Custody (NSYC), and the National Former Prisoner Survey (NFPS). The NIS collects information on sexual victimization self-reported by inmates held in adult correctional facilities, both prisons and jails. The NIS has been conducted three times, in 2007 (NIS–1), in 2008–09 (NIS–2), and in 2011–12 (NIS–3). Each iteration of NIS was conducted in at least one facility in all 50 states and the District of Columbia. In each iteration of the survey, inmates completed the survey using an audio computer-assisted self-interview (ACASI), whereby they heard questions and instructions via headphones and responded to the survey items via a touch-screen interface.

The collection requested in this notice is the fourth iteration of the National Inmate Survey. For NIS–4, administration of the survey in prisons will take place separately from survey administration in jails. This collection request is specific to conducting the survey in adult jail facilities.

The survey instrument for the NIS–4 in Jails is slightly modified from the previous iterations. The main difference is the addition of a new set of incident-specific questions administered to respondents who affirmatively indicate they were sexually victimized at some point in the previous 12 months while housed in their current jail facility. These incident-specific questions will provide information to the public on the nature of sexual victimization in jails, such as where incidents occurred within the facility, the relationship between the victim and the alleged perpetrator(s), and whether the victim suffered any injuries as a result of the

incident, among other incident characteristics.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* Prior to data collection commencing in 2023, BJS will coordinate the logistics of NIS–4 survey administration with staff at state, local, and tribal correction facilities. Because the administration of this survey in prisons is not included in this request, the overall number of burden hours is lower than in the last request approved in 2010. It is estimated that 290 facility administrators will devote 150 minutes of time to this coordination effort. During data collection in 2023, jail staff will escort an estimated 65,360 jail inmates to/from the interviews, which consists of a short consent administration and an approximately 35-minute survey.

6. *An estimate of the total public burden (in hours) associated with the collection:* This collection was previously approved for implementation in both adult prisons and jails. The current request will only be implemented in adult jails, thereby reducing the total number of facility staff and respondents required to participate. The total estimated NIS–4 Jails public burden, inclusive of facility staff and respondent burden estimates, is 64,010 hours. This comprises 17,065 hours of facility staff burden and 46,945 hours of respondent interviewing burden. This burden estimate assumes 100% participation from both facilities and inmates, but historically both facility and inmate participation have not reached 100%. For purposes of comparison, during Year 3 of the NIS, the total maximum burden was estimated at 45,034 hours for the jail sample. The total burden actually used was 29,943 hours.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: April 12, 2022.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.
