

U.S.C. 4321 *et seq.*), as implemented by the regulations published by the Council on Environmental Quality (40 CFR parts 1500–1508), the Navy prepared an Environmental Assessment (EA) to consider the direct, indirect and cumulative effects to the human environment resulting from the wharf maintenance project. NMFS made the Navy's EA available to the public for review and comment, in relation to its suitability for adoption by NMFS in order to assess the impacts to the human environment of issuance of an IHA to the Navy. Also in compliance with NEPA and the CEQ regulations, as well as NOAA Administrative Order 216–6, NMFS has reviewed the Navy's EA, determined it to be sufficient, and adopted that EA and signed a Finding of No Significant Impact (FONSI) on June 8, 2015. The Navy's EA and NMFS' FONSI for this action may be found on the Internet at www.nmfs.noaa.gov/pr/permits/incidental/construction.htm.

Authorization

As a result of these determinations, we have issued an IHA to the Navy for the described wharf maintenance activities in the Hood Canal, from July 16, 2015 through January 15, 2016, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated.

Among other things, the CFPB is to facilitate the centralized collection of, monitoring of, and response to complaints concerning consumer financial products and services. The Act further provides for consumer complaint sharing and reporting to Congress. To fulfill this mandate, the CFPB has developed a portal for congressional users as part of its secure web portal offerings (the Congressional Portal). The Act further provides for consumer complaint information sharing between the CFPB and State and Federal agencies (Agencies). To fulfill this mandate, the

CFPB has developed a portal for state users as part of its secure web portal offerings (the Government Portal). Through the Congressional Portal, congressional offices can view consumer submitted complaint data in a user-friendly format that allows easy identification of complaints currently active in the CFPB process, complaints referred to prudential federal regulators, and complaints that are closed or archived. The Portal includes features for congressional offices to export selected complaint data and search by company, consumer name, consumer financial product and more. It also allows congressional offices to identify whether a named company has responded to a complaint and view the company closure response category. Through the portal, Agencies can view consumer submitted complaint data in a user-friendly format that allows easy identification of complaints currently active in the CFPB process, complaints referred to a prudential federal regulator and other closed/archived complaints. The portal includes features for State agencies to export selected complaint data and search by company, consumer name, consumer financial product and more. It also allows State agencies to identify whether a named company has responded to a complaint and view the company closure response category.
