SUPPLEMENTARY INFORMATION:

I. Background

DoD is establishing the "Freedom of Information Act and Privacy Act Records" system of records as a DoD-wide Privacy Act system of records. A DoD-wide system of records notice (SORN) supports multiple DoD paper or electronic recordkeeping systems operated by more than one DoD component that maintain the same kind of information about individuals for the same purpose. Establishment of DoD-wide SORNs help DoD standardize the rules governing the collection, maintenance, use, and sharing of personal information in key areas across the enterprise. DoD-wide SORNs also reduce duplicative and overlapping SORNs published by separate DoD components. The creation of DoD-wide SORNs is expected to make locating relevant SORNs easier for DoD personnel and the public, and create efficiencies in the operation of the DoD privacy program.

This system of records concerns access requests and administrative appeals under the Freedom of Information Act (FOIA), and access and amendment requests and administrative appeals under the Privacy Act. The system consists of both electronic and paper records and will be used by DoD components and offices to maintain records about individuals who submit FOIA access requests, Privacy Act access and amendment requests,
