Needs and Uses

Connect America Fund Phase II Auction

On November 18, 2011, the Commission released the *USF/ICC Transformation Order and Further Notice of Proposed Rulemaking*, WC Docket No. 10–90 et al., FCC 11–161 (*USF/ICC Transformation Order and/or FNPRM*), which comprehensively reformed and modernized the high-cost program within the universal service fund to focus support on networks

capable of providing voice and broadband services. Among other things, the Commission created the Connect America Fund (CAF) and concluded that support in price cap areas would be provided through a combination of “a new forward-looking model of the cost of constructing modern multi-purpose networks” and a competitive bidding process (CAF Phase II auction or Auction 903). The Commission also sought comment in the accompanying *USF/ICC Transformation FNPRM* on proposed rules governing the CAF Phase II auction, including basic auction design and the application process.

In the CAF Phase II auction, service providers competed to receive support of up to \$1.98 billion over 10 years to offer voice and broadband service in unserved high-cost areas. The information collection requirements reported under this collection are the result of several Commission decisions to implement the reform adopted in the *USF/ICC Transformation Order* and move forward with conducting the CAF Phase II auction. In the *April 2014 Connect America Order*, WC Docket No. 10–90 et al., FCC 14–54, the Commission adopted various rules regarding participation in the CAF Phase II auction, the term of support, and the eligible telecommunications carrier (ETC) designation process. In the *Phase II Auction Order*, WC Docket No. 10–90 et al., FCC 16–64, the Commission adopted rules to govern the CAF Phase II auction, including the adoption of a two-stage application process, which includes a pre-auction short-form application to be submitted by parties interested in bidding in the CAF Phase II auction and a post-auction long-form application that must be submitted by winning bidders seeking to become authorized to receive CAF Phase II auction support. The Commission concluded, based on its experience with auctions and consistent with the record, that this two-stage application process balances the need to collect information essential to conducting a successful auction and authorizing CAF Phase II support with administrative efficiency.

On January 30, 2018, the Commission adopted a public notice that established the final procedures for the CAF Phase II auction, including the long-form application disclosure and certification requirements for winning bidders seeking to become authorized to receive CAF Phase II auction support. See *Phase II Auction Procedures Public Notice*, WC Docket No. 17–182 et al., FCC 18–6. The Commission also adopted the *Phase II Auction Order on Reconsideration*, WC

Docket No. 10–90 et al., FCC 18–5, which modified the Commission’s letter of credit rules to provide some additional relief for CAF Phase II auction support recipients by reducing the costs of maintaining a letter of credit.

The Commission reduces the number of respondents that are subject to this collection now that the CAF Phase II auction winning bidders have been announced.

Rural Digital Opportunity Fund Auction

On February 7, 2020 the Commission released the *Rural Digital Opportunity Fund Order*, WC Docket Nos. 19–126, 10–90, FCC 20–5 which will commit up to \$20.4 billion over the next decade to support up to gigabit speed broadband networks in rural America. The funding will be allocated through a multi-round, reverse, descending clock auction that favors faster services with lower latency and encourages intermodal competition in order to ensure that the greatest possible number of Americans will be connected to the best possible networks, all at a competitive cost.

To implement the Rural Digital Opportunity Fund auction, the Commission adopted new rules for the Rural Digital Opportunity Fund auction, including the adoption of a two-stage application process. Like with the CAF Phase II auction, this process includes a pre-auction short-form application to be submitted by parties interested in bidding in the Rural Digital Opportunity Fund auction (FCC Form 183) and a post-auction long-form application that must be submitted by winning bidders (or their designees) seeking to become authorized to receive Rural Digital Opportunity Fund support (FCC Form 683). The Commission received approval for the short-form application (FCC Form 183) in a separate collection under the OMB control number 3060–1252.

The Commission plans to submit at a later date additional revisions or new collections for OMB review to address other reforms adopted in the above-referenced Order.

The Commission therefore revises this information collection to reflect these requirements to determine the recipients of Connect America Phase II auction and Rural Digital Opportunity Fund auction support.

Federal Communications Commission.
