BILLING CODE 6717–01–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2017–0692; FRL–9980–29]

Agency Information Collection Activities; Proposed Renewal of an Existing Collection (EPA ICR No. 2507.02); Comment Request

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces that EPA is planning to submit an Information Collection Request (ICR) to the Office of Management and Budget (OMB). The ICR, entitled: “Lead Training, Certification, Accreditation and Authorization Activities” and identified by EPA ICR No. 2507.02 and OMB Control No. 2070–0195, represents the renewal of an existing ICR that is scheduled to expire on January 31, 2019. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before October 1, 2018.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA-HQ-OPPT-2017-0692, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* Document Control Office (7407M), Office of Pollution Prevention and Toxics (OPPT), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT:

For technical information contact: John Yowell, National Program Chemicals Division, (7404T), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 564-1213; email address: yowell.john@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

II. What information collection activity or ICR does this action apply to?

Title: Information Collection for Lead Training, Certification, Accreditation, and Authorization Activities (Lead-Based Paint Activities Rule and Renovation, Repair, and Painting Rule).

ICR number: EPA ICR No. 2507.02.

OMB control number: OMB Control No. 2070-0195.

ICR status: This ICR is currently scheduled to expire on January 31, 2019. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This information collection involves third-party notification, required under section 406(b) of the Toxic Substances Control Act (TSCA), to owners and occupants of housing that will inform such individuals about the dangers of lead-contaminated dust and lead-based paint debris that are sometimes generated during renovations of housing where lead-based paint is present, thereby aiding them in avoiding potentially hazardous exposures and protecting public health. Since young children are especially susceptible to the hazards of lead, owners and occupants with children can take action to protect their children from lead poisonings. Section 406(b) of TSCA requires EPA to promulgate regulations requiring certain persons who perform renovations for compensation on target housing to provide a lead hazard information pamphlet (developed under TSCA section 406(a)) to the owner and occupants of such housing prior to beginning the renovation. Further, the firm performing the renovation must

keep records acknowledging receipt of the pamphlet on file for three years after completion of work. Those who fail to provide the pamphlet or keep records as required may be subject to both civil and criminal sanctions.

This information collection also addresses the reporting and recordkeeping requirements for individuals or firms conducting lead-based paint activities or renovation in or on houses, apartments, or child-occupied facilities built before 1978, under the authority of sections 402 and 404 of TSCA. These sections and their implementing regulations require EPA to develop and administer a training and certification program as well as work practice standards for persons who perform lead-based paint activities and/or renovations. 40 CFR part 745, subpart E, covers work practice standards, recordkeeping and reporting requirements, individual and firm certification, and enforcement for renovations done in target housing or child-occupied facilities. 40 CFR part 745, subpart L, covers inspections, lead hazard screens, risk assessments, and abatement activities (referred to as "lead-based paint activities") done in target housing and child-occupied facilities. 40 CFR part 745, subpart Q, establishes the requirements that state or tribal programs must meet for authorization to administer the standards, regulations, or other requirements established under TSCA Section 402. Section 401 of TSCA defines target housing as any housing constructed prior to 1978, except housing for the elderly or persons with disabilities or any 0-bedroom dwelling (unless any child who is less than 6 years of age resides or is expected to reside in such housing).

Responses to the collection of information are mandatory (see 40 CFR part 745). Respondents may claim all or part of a document confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Burden statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.2 hours per response. Burden is defined in 5 CFR 1320.3(b).

The ICR, which is available in the docket along with other related materials, provides a detailed explanation of the collection activities and the burden estimate that is only briefly summarized here:

Respondents/Affected Entities: Entities potentially affected by this ICR

include persons who are engaged in lead-based paint activities and/or perform renovations of target housing or child-occupied facilities for compensation, dust sampling, or dust testing; or who perform lead-based paint inspections, lead hazard screens, risk assessments or abatements in target housing or child-occupied facilities; or who provide training or operate a training program for individuals who perform any of these activities; or state, territorial or tribal agencies that administer lead-based paint activities and/or renovation programs.

Estimated total number of potential respondents: 770,564.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 30.3.

Estimated total annual burden hours: 5,251,320 hours.

Estimated total annual costs: \$303,099,637. This includes an estimated burden cost of \$303,099,637 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

III. Are there changes in the estimates from the last approval?

There is a decrease of 1,211,977 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This decrease reflects adjustments in EPA's estimates of the burden. The ICR supporting statement provides a detailed analysis of the change in burden estimate. This change is an adjustment.

IV. What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** document pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Authority: 44 U.S.C. 3501 *et seq.*

Dated: July 16, 2018.

Charlotte Bertrand,

Acting Principal Deputy Assistant Administrator, Office of Chemical Safety and Pollution Prevention.
