## DEPARTMENT OF STATE

### [Public Notice 8782]

#### Certifications Pursuant to Section 609 of Public Law 101–162

**SUMMARY:** On May 14 2014, the Department of State certified, pursuant to Section 609 of Public Law 101–162, that 14 nations have adopted programs to reduce the incidental capture of sea turtles in their shrimp fisheries comparable to the program in effect in the United States. The Department also certified that the fishing environments in 26 other countries and one economy do not pose a threat of the incidental taking of sea turtles protected under Section 609.

**DATES:** *Effective Date:* On Publication.

**FOR FURTHER INFORMATION CONTACT:**

Stephen J. Wilger, Office of Marine Conservation, Bureau of Oceans and International Environmental and Scientific Affairs, Department of State, Washington, DC 20520–7818; telephone: (202) 647–3263; email: [wilgersj2@state.gov](mailto:wilgersj2@state.gov).

**SUPPLEMENTARY INFORMATION:** Section 609 of Public Law 101–162 (“Section 609”) prohibits imports of certain categories of shrimp unless the President certifies to the Congress by May 1, 1991, and annually thereafter, either: (1) that the harvesting nation has adopted a program governing the incidental capture of sea turtles in its commercial shrimp fishery comparable

to the program in effect in the United States and has an incidental take rate comparable to that of the United States; or (2) that the fishing environment in the harvesting nation does not pose a threat of the incidental taking of sea turtles. The President has delegated the authority to make this certification to the Department of State (“the Department”). Revised State Department guidelines for making the required certifications were published in the **Federal Register** on July 2, 1999 (Vol. 64, No. 130, Public Notice 3086).

On May 14, 2014, the Department certified 14 nations on the basis that their sea turtle protection programs are comparable to that of the United States: Colombia, Costa Rica, Ecuador, El Salvador, Gabon, Guatemala, Guyana, Honduras, Mexico, Nicaragua, Nigeria, Pakistan, Panama, and Suriname. The Department also certified 26 shrimp harvesting nations and one economy as having fishing environments that do not pose a danger to sea turtles. Sixteen nations have shrimping grounds only in cold waters where the risk of taking sea turtles is negligible. They are: Argentina, Belgium, Canada, Chile, Denmark, Finland, Germany, Iceland, Ireland, the Netherlands, New Zealand, Norway, Russia, Sweden, the United Kingdom, and Uruguay. Ten nations and one economy only harvest shrimp using small boats with crews of less than five that use manual rather than mechanical means to retrieve nets, or catch shrimp using other methods that do not threaten sea turtles. Use of such small-scale technology does not adversely affect sea turtles. The 10 nations and one economy are: the Bahamas, Belize, China, the Dominican Republic, Fiji, Hong Kong, Jamaica, Oman, Peru, Sri Lanka, and Venezuela. The Department of State has communicated the certifications under Section 609 to the Office of Field Operations of U.S. Customs and Border Protection.

All DS–2031 forms accompanying shrimp imports from uncertified nations must be originals and signed by the competent domestic fisheries authority.

Shrimp harvested with turtle excluder devices (TEDs) in an uncertified nation may, under specific circumstances, be eligible for importation into the United States under the DS–2031 section 7(A)(2) provision for “shrimp harvested by commercial shrimp trawl vessels using TEDs comparable in effectiveness to those required in the United States.” Use of this provision requires that the Department of State determine in advance that the government of the harvesting nation has put in place adequate procedures to monitor the use
