

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995 (PRA), the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection, FERC–587, *Land Description: Public Land States/Non-Public Land States*, OMB Control Number 1902–0145, which will be submitted to the Office of Management and Budget (OMB) for review.

DATES: Comments on the collection of information are due August 9, 2024.

ADDRESSES: Send written comments on FERC–587 to OMB through www.reginfo.gov/public/do/PRAMain. Attention: Federal Energy Regulatory Commission Desk Officer. Please identify the OMB Control Number (1902–0145) in the subject line of your comments. Comments should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain.

Please submit copies of your comments to the Commission. You may submit copies of your comments (identified by Docket No. IC24–15–000) by one of the following methods:

Electronic filing through <https://www.ferc.gov>, is preferred.

- **Electronic Filing:** Documents must be filed in acceptable native applications and print-to-PDF, but not in scanned or picture format.

- For those unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery.

○ *Mail via U.S. Postal Service Only:* Addressed to: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street NE, Washington, DC 20426.

○ *Hand (including courier) Delivery:* Deliver to: Federal Energy Regulatory Commission, Secretary of the Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Instructions: OMB submissions must be formatted and filed in accordance with submission guidelines at www.reginfo.gov/public/do/PRAMain. Using the search function under the “Currently Under Review” field, select Federal Energy Regulatory Commission; click “submit,” and select “comment” to the right of the subject collection.

FERC submissions must be formatted and filed in accordance with submission guidelines at: <https://www.ferc.gov>. For user assistance, contact FERC Online Support by email at ferconlinesupport@ferc.gov, or by phone at: (866) 208–3676 (toll-free).

Docket: Users interested in receiving automatic notification of activity in this docket or in viewing/downloading comments and issuances in this docket may do so at <https://www.ferc.gov/ferc-online/overview>.

FOR FURTHER INFORMATION CONTACT: Jean Sonneman may be reached by email at DataClearance@FERC.gov, telephone at (202) 502–6362.

SUPPLEMENTARY INFORMATION:
Title: FERC–587, *Land Description: Public Land States/Non-Public Land States*.

OMB Control No.: 1902–0145.
Type of Request: Three-year extension of the FERC–587 information collection requirements with no changes to the current reporting requirements.

Abstract: Section 24 of the Federal Power Act (FPA) ¹ requires the Commission to conduct this collection of information, which pertains to applications proposing hydropower projects, or changes to existing hydropower projects, within “lands of the United States.” FERC Form 587 ² consolidates the required information, including a description of the applicable U.S. lands and identification of hydropower project boundary maps associated with the applicable U.S. lands. An applicant must send FERC Form 587 both to the Commission and to the Bureau of Land Management (BLM) state office where the project is located. The information consolidated in FERC Form 587 facilitates the reservation of U.S. lands as hydropower sites and the withdrawal of such lands from other uses.

Type of Respondents: Applicants proposing hydropower projects, or changes to existing hydropower projects, within lands of the United States.

Estimate of Annual Burden: ³ The Commission estimates the annual public reporting burden for the information collection as shown below:

A. Number of respondents	B. Annual estimated number of responses per respondent	C. Annual estimated number of responses (column A × column B)	D. Average burden hours & cost ⁴ per response	E. Total estimated burden hours & total estimated cost (column C × column D)	F. Average annual cost per respondent (\$) (column E ÷ column A)
70	1	70	1 hour; \$100.00	70 hours; \$7,000.00	\$100.00

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility

and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: July 2, 2024.
Debbie-Anne A. Reese,
Acting Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Project No. 2055–109]

Idaho Power Company; Notice of Availability and Adoption of Final Environmental Assessment

Pending before the Federal Energy Regulatory Commission (Commission) is an application filed by Idaho Power Company (licensee) to permit a non-project use of project lands and waters for the purpose of permitting a water withdrawal from the C.J. Strike Hydroelectric Project FERC No. 2055. The water withdrawal would provide raw water to Mountain Home Airforce Base. In accordance with the National Environmental Policy Act of 1969 (NEPA), the Commission's regulations at 18 CFR part 380, and the Council on Environment Quality regulations for implementing NEPA at 40 CFR 1506.3(c), Commission staff have decided to adopt an Environmental Assessment (EA) produced by Bureau of Land Management (BLM) for the proposed intake facility, pumping station, and pipeline for the proposed project. In determining whether to adopt the EA, Commission staff independently reviewed the EA. The actions analyzed by BLM are substantially the same as those being proposed in the licensee's application, and therefore, Commission staff concludes that the EA adequately assesses the environmental impacts of the proposed action and can be adopted. Commission staff also agrees with the BLM's finding that the proposed water withdrawal is not a major federal action significantly affecting the quality of the human environment.

The licensee proposes to allow Idaho Water Resources Board to construct an intake facility and pumping station within the C.J. Strike Hydroelectric Project's boundary to withdraw water
