II. What Action is the Agency Taking?

EPA approves the modifications of the test marketing period, production volume, and number of customers for TME-02-0005. EPA has determined that test marketing of the new chemical substance described in this notice, under the conditions set out in the TME applications and modification requests, and for the modified time periods specified in this notice, will not present any unreasonable risk of injury to health or the environment. Production volume, use, and the number of customers must not exceed specifications in the application. All other conditions and restrictions described in the original notice of approval of test marketing application must be met.

TME-02-0005

Notice of approval of original application: February 27, 2002, (67 FR 8971) (FRL-6825-3).

III. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

FEDERAL MARITIME COMMISSION

[Petition No. P2-02]

Petition of the South Florida NVOCC-NAOCC Association, Inc. for an Investigation of the Service Contracting and Rating Practices of the Caribbean Shipowners Association; Notice of Filing and Request for Comments

Notice is hereby given that, by petition filed October 8, 2002, the South Florida NVOCC-NAOCC Association, Inc. ("Petitioner") has petitioned the Commission for an investigation under section 11(c) of the Shipping Act of 1984 ("Shipping Act") of certain activities by the members of the Caribbean Shipowners Association ("CSA").

In particular, Petitioner requests the Commission to determine whether CSA's members have violated the Shipping Act through discriminatory service contracting and rating practices in the Caribbean trades that intentionally discriminate against Ocean Transportation Intermediaries ("OTIs") in violation of sections 10(c)(1), 10(c)(3), 10(c)(7) and 10(c)(8) of the Shipping Act. Petitioner contends that these practices reduce competition in the involved trades and produce unreasonable reductions in transportation service and unreasonable increases in transportation cost to OTIs, their shippers and the shipping public within the meaning of section 6(g) of the Shipping Act. Petitioner further alleges that CSA and its members may be in violation of section 5(c) of the Shipping Act by either adopting mandatory agreements relating to OTI rates and services or failing to file true copies of their voluntary guidelines thereon with the Commission. Petitioner finally alleges that, in taking these actions, CSA is operating in violation of its agreement and is therefore also in violation of section 10(c)(3) of the Shipping Act.

In support of these contentions, Petitioner claims that Non-Vessel-Operating common carrier OTIs ("NVOs") depend upon CSA members to transport their shipments, approximately 90% of which move under service contracts. On or about July 1, 2002, CSA members announced a selective rate increase plan targeting service contract and tariff rates for the commodity descriptions almost exclusively used by NVOs for consolidated containers of less than container load ("LCL") cargo: Freight All Kinds ("FAK") and General Department Store Merchandise ("GDSM"). Petitioner states that the increases were substantial (from 10% to 40%); however, CSA purportedly did not take across-the-board increases for any other commodities or categories of shippers. Petitioner asserts that CSA's members' service contract offers to NVOs have eliminated all commodity rates other than FAK and GDSM, thereby depriving NVOs of a rate basis on which to compete for full container load ("FCL"), single commodity shipments. Petitioner further alleges that, at the same time, a wholly-owned NVO subsidiary of CSA member Tropical Shipping and Construction Co., Ltd. ("Tropical") (described by Petitioner as the largest vessel-operating carrier in most of the involved markets and virtually the only CSA member competing in the LCL market) reduced its LCL rates. Petitioner argues the
