District of Texas, San Antonio Division in the lawsuit entitled *United States of America v. Valero Energy Corporation, et al.*, Civil Action No. Case 5:20-cv-01237.

In its Complaint, the United States alleges Valero violated Section 211 of the Clean Air Act ("CAA") and its implementing regulations at 40 CFR part 80, arising from the production and importation of gasoline and diesel fuel that did not meet certain fuel standards or programmatic requirements. The proposed Consent Decree, which resolves all violations alleged in the Complaint, recovers a civil penalty of \$2,850,000. Injunctive relief secured by the proposed Consent Decree requires development and implementation of a company-wide Fuels Management System to facilitate Valero's production of gasoline and diesel fuel in accordance with the CAA and the Fuels Regulations.
