SUPPLEMENTARY INFORMATION: The American Rescue Plan Act of 2021 (ARPA) reauthorized and amended the Small Business Jobs Act of 2010 (SSBCI statute) to provide \$10 billion to fund SSBCI as a response to the economic effects of the COVID-19 pandemic,¹ including up to \$500 million for TA to qualifying businesses. As further detailed in the SSBCI statute (12 U.S.C. 5708(e)), Treasury may generally deploy the \$500 million for TA in three ways: (1) by providing funds to eligible jurisdictions to carry out qualifying TA plans, (2) by transferring amounts to the Minority Business Development Agency (MBDA) so that the MBDA may use such amounts in a matter it determines appropriate to provide TA to qualifying businesses, or (3) by contracting with legal, accounting, and financial advisory firms to provide TA to qualifying businesses. Treasury previously allocated \$200 of the \$500 million in TA funding to an SSBCI TA Grant Program

¹ ARPA, Public Law 117-2, sec. 3301, codified at 12 U.S.C. 5701 *et seq.* SSBCI was originally established in title III of the Small Business Jobs Act of 2010. This notice announces the extension of the comment period in order to give additional time for interested parties to provide comments. Authority: OMB Circular A-11 (2018), section 280.

Title: Clearance for A-11 Section 280 Improving Customer Experience Information Collection.

OMB Control Number: 2900-0876.

Type of Review: New collection.

Abstract: Whether seeking a loan, Social Security benefits, veterans benefits, or other services provided by the Federal Government, individuals and businesses expect Government customer services to be efficient and intuitive, just like services from leading private-sector organizations. Yet the 2016 American Consumer Satisfaction Index and the 2017 Forrester Federal Customer Experience Index show that, on average, Government services lag nine percentage points behind the private sector.

A modern, streamlined and responsive customer experience means: raising government-wide customer experience to the average of the private

sector service industry; developing indicators for high-impact Federal programs to monitor progress towards excellent customer experience and mature digital services; and providing the structure (including increasing transparency) and resources to ensure customer experience is a focal point for agency leadership. To support this, OMB Circular A-11 section 280 established government-wide standards for mature customer experience organizations in government and measurement. To enable Federal programs to deliver the experience taxpayers deserve, they must undertake three general categories of activities: conduct ongoing customer research, gather and share customer feedback, and test services and digital products.

These data collection efforts may be either qualitative or quantitative in nature or may consist of mixed methods. Additionally, data may be collected via a variety of means, including but not limited to electronic or social media, direct or indirect observation (*i.e.*, in person, video and audio collections), interviews, questionnaires, surveys, and focus groups. Veterans Experience Office will limit its inquiries to data collections that solicit strictly voluntary opinions or responses. Steps will be taken to ensure anonymity of respondents in each activity covered by this request.

The results of the data collected will be used to improve the delivery of Federal services and programs. It will include the creation of personas, customer journey maps, and reports and summaries of customer feedback data and user insights. Veterans Experience Office will collect this information by electronic means when possible, as well as by mail, fax, telephone, technical discussions, and in-person interviews. Veterans Experience Office may also utilize observational techniques to collect this information.

Collections will be targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future. For the purposes of this request, "customers" are individuals, businesses, and organizations that interact with a Federal Government agency or program, either directly or via a Federal contractor. This could include individuals or households; businesses or other for-profit organizations; not-for-profit institutions; State, local or tribal governments; Federal government; and Universities.

Affected Public: Individuals.

Estimated Annual Burden: 2,504,975.
