

and Commercial and Government Entity (CAGE) code. The entity completes the FSRS registration by providing contact information within the entity for approval.

If a prime awardee has already registered in FSRS to report contracts-related Transparency Act financial data, a new log-in will not be required. In addition, if a prime awardee had a user account in the Electronic Subcontract Reporting System (eSRS), a new log-in will not be required.

B. Annual Reporting Burden

Respondents: 2,662.

Responses per Respondent: 1.

Total annual responses: 2,662.

Hours per Response: .5.

Total Burden Hours: 1,331.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat Division (MVCB), 1800 F Street NW, Washington, DC 20405, telephone 202-501-4755. Please cite OMB Control No. 3090-0291, FSRS Registration Requirements for Prime Grant Awardees, in all correspondence.

Beth Ann Killoran,

Chief Information Officer, General Services Administration.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[OMB Control No. 9000-0157; Docket No. 2020-0053; Sequence No. 12]

Information Collection; Architect-Engineer Qualifications (SF-330)

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice and request for comments.

SUMMARY: In accordance with section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, and the Office of Management and Budget (OMB) regulations, DoD, GSA, and NASA invite the public to comment on a revision and renewal concerning architect-engineer qualifications (Standard Form (SF) 330). DoD, GSA, and NASA invite comments on: Whether the proposed collection of information is necessary for the proper performance of the functions of Federal Government acquisitions, including whether the information will have practical utility; the accuracy of the estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology. OMB has approved this information collection for use through December 31, 2020. DoD, GSA, and NASA propose that OMB extend its approval for use for three additional years beyond the current expiration date.

DATES: DoD, GSA, and NASA will consider all comments received by December 21, 2020.

ADDRESSES: DoD, GSA, and NASA invite interested persons to submit comments on this collection through <http://www.regulations.gov> and follow the instructions on the site. This website provides the ability to type short comments directly into the comment field or attach a file for lengthier comments. If there are difficulties submitting comments, contact the GSA Regulatory Secretariat Division at 202-501-4755 or GSARegSec@gsa.gov.

Instructions: All items submitted must cite Information Collection 9000-

0157, Architect-Engineer Qualifications (SF-330). Comments received generally will be posted without change to <http://www.regulations.gov>, including any personal and/or business confidential information provided. To confirm receipt of your comment(s), please check www.regulations.gov, approximately two-to-three days after submission to verify posting.

FOR FURTHER INFORMATION CONTACT:

Zenaida Delgado, Procurement Analyst, at telephone 202-969-7207, or zenaida.delgado@gsa.gov.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and Any Associated Form(s)

9000-0157, Architect-Engineer Qualifications (SF-330).

B. Need and Uses

This clearance covers the information that offerors must submit to comply with the following Federal Acquisition Regulation (FAR) requirement:

Standard Form (SF) 330, Architect-Engineer Qualifications. As specified in FAR 36.702(b), an architect-engineer firm must provide information about its qualifications for a specific contract when the contract amount is expected to exceed the simplified acquisition threshold. Part I of the SF 330 may be used when the contract amount is expected to be at or below the simplified acquisition threshold, if the contracting officer determines that its use is appropriate. Part II of the SF 330 is used to obtain information from an architect-engineer firm about its general professional qualifications.

The SF 330 accomplishes the following:

- Expands essential information about qualifications and experience data including:
 - An organizational chart of all participating firms and key personnel.
 - For all key personnel, a description of their experience in 5 relevant projects.
 - A description of each example project performed by the project team (or some elements of the project team) and its relevance to the agency's proposed contract.
 - A matrix of key personnel who participated in the example projects. This matrix graphically illustrates the degree to which the proposed key personnel have worked together before on similar projects.
- Reflects current architect-engineer disciplines, experience types and technology.
- Permits limited submission length thereby reducing costs for both the

architect-engineer industry and the Government. Lengthy submissions do not necessarily lead to a better decision on the best-qualified firm. The proposed SF 330 indicates that agencies may limit the length of firm's submissions, either certain sections or the entire package. The Government's right to impose such limitations was established in case law (*Coffman Specialties, Inc.*, B-284546, N-284546/2, 2000 U.S.Comp.Gen.LEXIS 58, May 10, 2000).

The contracting officer uses the information provided on the SF 330 to evaluate firms to select an architect-engineer firm for a contract.

C. Annual Burden

Respondents: 411.

Total Annual Responses: 1,644.

Total Burden Hours: 47,676.

Obtaining Copies: Requesters may obtain a copy of the information collection documents from the GSA Regulatory Secretariat Division by calling 202-501-4755 or emailing GSARegSec@gsa.gov. Please cite OMB Control No. 9000-0157, Architect-Engineer Qualifications (SF-330).

William F. Clark,

Director, Office of Government-wide Acquisition Policy, Office of Acquisition Policy, Office of Government-wide Policy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[30 Day-21-0214]

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled National Health Interview Survey (NHIS) to the Office of Management and Budget (OMB) for review and approval. CDC previously published a "Proposed Data Collection Submitted for Public Comment and Recommendations" notice on April 16, 2020 to obtain comments from the public and affected agencies. CDC received five comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

National Health Interview Survey (NHIS) (OMB Control No. 0920-0214, Exp. 12/31/2020)—Revision—National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Section 306 of the Public Health Service (PHS) Act (42 U.S.C.), as amended, authorizes that the Secretary of Health and Human Services (HHS), acting through NCHS, shall collect statistics on the extent and nature of illness and disability of the population of the United States.

The annual National Health Interview Survey (NHIS) is a major source of general statistics on the health of the U.S. population and has been in the field continuously since 1957. This

voluntary and confidential household-based survey collects demographic and health-related information from a nationally representative sample of households and noninstitutionalized, civilian persons throughout the country. NHIS data have long been used by government, academic, and private researchers to evaluate both general health and specific issues, such as smoking, diabetes, health care coverage, and access to health care. The survey is also a leading source of data for the Congressionally mandated "Health US" and related publications, as well as the single most important source of statistics to track progress toward HHS health objectives.

The NHIS sample adult and sample child questionnaires include annual core content that is scheduled to be fielded in the survey every year, rotating content that is fielded periodically, emerging content to address new topics of growing interest, and sponsored content that is fielded when external funding is available. In July 2020, content related to the COVID-19 pandemic and for which emergency OMB clearance was obtained on June 22, 2020 was added to both the sample adult and sample child questionnaires. Items on positive COVID-19 cases, and access to non-pandemic care were added to both the sample child and sample adult questionnaires. Items on underlying health conditions, immunosuppression, access to cancer care, access to skilled and informal caregiving, social support, impact of chronic pain, and social distancing at current or most recent job were added to the sample adult questionnaire only. All of these items will be fielded as part of the 2021 NHIS.

Sample adult content fielded in the 2020 NHIS that will be removed from the 2021 NHIS includes dental services and other provider services, physical activity, walking for transportation and leisure, sleep, fatigue, smoking history and cessation and alcohol use. Sponsored content that will be removed include content on asthma, diabetes prevention, diabetes family history, opioid use, pain management and cancer control items on lung cancer screening, environment for walking and sun care protection. Sample child content fielded in the 2020 NHIS that will be removed from the 2021 NHIS include items on dental services, mental health services, other provider services, height and weight, physical activity, neighborhood characteristics, sleep, and screen time will rotate off the sample child core. Sponsored content on asthma will be also be removed.
