

positions listed above undergo the medical examination, a representative of FSIS notifies the applicants in writing of the reasons for the examination, the process, and the consequences of the failure to report for an examination or provide medical documentation. Any physical condition that would hinder an individual's full, efficient, and safe performance of his or her duties is considered disqualifying for employment, except when the individual presents convincing evidence that he or she can perform the essential functions of the job efficiently and without hazard.

Second, FSIS uses Form 4306–5, "Medical Documentation for Employee's Reasonable Accommodation Request," to help determine whether the Agency will provide reasonable accommodation to qualified individuals. In accordance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act Amendments Act of 2008, FSIS makes reasonable accommodations for the known physical or mental limitations of qualified individuals with disabilities, unless the accommodation would impose an undue hardship on the operation of FSIS. FSIS requires medical information from a health care provider to determine whether the person's condition rises to the level of disability under the law and to determine whether the limitations can be effectively accommodated.

There has been an increase in hiring and an increase in applications for Reasonable Accommodation. As a result, the Agency has increased the burden estimate by 733 hours. FSIS has also discontinued use of FSIS Form 4630–7 "Confidential Medical Information," because the Leave Bank Program now accepts a Department of Labor form. The approval for this information collection will expire on November 20, 2022.

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take each respondent an average of 90 minutes to complete the FSIS Form 4339–1, 10 minutes to complete the FSIS Form 4306–5, and 15 minutes to complete the FSIS Form 4630–8.

Respondents: Health Care Providers.
Estimated Total Number of Annual Respondents: 1,250 respondents.
Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1,524 hours.

All responses to this notice will be summarized and included in the request

for OMB approval. All comments will also become a matter of public record. Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW, Mailstop 3758, South Building, Washington, DC 20250–3700; (202) 720–5627.

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of FSIS' functions, including whether the information will have practical utility; (b) the accuracy of FSIS' estimate of the burden of the proposed collection of information, including the validity of the method and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20253.
