III. Discussion

The NRC is issuing for public comment the draft EIS for the proposed United Nuclear Corporation (UNC) license amendment to excavate approximately 1 million cubic yards of mine waste from the Northeast Church Rock Mine Site and dispose of it at the existing mill site in McKinley County, New Mexico.

The draft EIS for UNC's license amendment application includes the NRC's preliminary analysis that evaluates the environmental impacts of the proposed action and alternatives to the proposed action. After comparing the impacts of the proposed action to the No-Action alternative, the NRC staff, in accordance with the requirements in part 51 of title 10 of the *Code of Federal Regulations*, preliminarily recommends that the NRC proceed with the proposed action, which would be to authorize UNC to transfer and dispose of the Northeast Church Rock (NECR) mine waste on top of the UNC tailings impoundment. This recommendation is based on (i) the license application request, which includes the Environmental Report (ER) and supplemental documents and the licensee's responses to the NRC staff's requests for additional information; (ii) consultation with Federal, State, Tribal, and local agencies and input from other stakeholders; and (iii) independent NRC staff review as documented in the assessments summarized in this EIS.

Dated: November 6, 2020.

For the Nuclear Regulatory Commission.

Jessie M. Quintero,

Chief, Environmental Review Materials Branch, Division of Rulemaking, Environmental, and Financial Support, Office of Nuclear Material Safety and Safeguards.

I. Introduction

On November 5, 2020, the Postal Service filed a notice of minor classification changes governing international mail in the Mail Classification Schedule (MCS) pursuant to 39 CFR 3040.212.¹ The Postal Service seeks to revise the size limits for international small packets as they appear in the MCS. Notice at 1. The changes are intended to take effect on January 24, 2021, in conjunction with the implementation of the Competitive product price change filed in Docket No. CP2021-15. *Id.* at 2.

¹ Notice of the United States Postal Service of Minor Classification Changes Concerning the Minimum Size Limit for International Small Packet, November 5, 2020 (Notice).

II. Summary of Changes

39 CFR 3040.212 requires the Postal Service to "notify the Commission of updates to size and weight limitations for [C]ompetitive mail matter" pursuant to 39 CFR 3040, subpart E. The Postal Service maintains that the Notice satisfies the requirements of 39 CFR 3040, subpart E because "the changes described should result in the MCS more accurately representing the Postal Service's current offerings." *Id.*; see 39 CFR 3040.190(a). The Postal Service states that the Notice is filed at least 15 days before the intended effective date, and the changes merely revise size limits for international small packets as they appear in the MCS without otherwise changing product offerings or the prices or price groups applicable to such products and countries. Notice at 2-3; 39 CFR 3040.190(b) and (c). The Postal Service concludes that "these minor classification changes do not constitute material changes, to the product descriptions of the products that might be affected." Notice at 3. The Notice includes a copy of the affected sections of the MCS with the proposed changes in legislative format as required by 39 CFR 3040.190(c)(3). *Id.* Attachment 1.

III. Notice of Commission Action

Pursuant to 39 CFR 3040.191, the Commission has posted the Notice on its website and invites comments on whether the Postal Service's filings are consistent with title 39 of the United States Code and 39 CFR part 3040, subparts E and F. Comments are due no later than November 20, 2020. The filing can be accessed via the Commission's website (<http://www.prc.gov>).

The Commission appoints Richard A. Oliver to represent the interests of the general public (Public Representative) in this docket.
