[Project No. 3133–033]

Brookfield White Pine Hydro, LLC; Errol Hydro Co., LLC; Notice of Availability of Final Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new license to continue to operate and maintain the Errol Hydroelectric Project. The project is located on the Androscoggin River and Umbagog Lake, near the Town of Errol, and Township of Cambridge, in Coos County, New Hampshire, and the Towns of Magalloway Plantation and Upton in Oxford County, Maine. Commission staff has prepared a Final Environmental Assessment (FEA) for the project. The project would occupy 3,285 acres of federal land in the Umbagog National Wildlife Refuge managed by the U.S. Fish and Wildlife Service.

The FEA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the FEA via the internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Because the 15-day deadline fell on a Saturday (*i.e.*, June 10, 2023), the deadline was extended until the close of business on Monday, June 12, 2023.
